DAKOTA COLLECTION LAWS.

[Revised by MARTIN & MASON, of the Deadwood Bar.]

ASSIGNMENT AND INSOLVENT LAWS.—The debtor may make an assignment in good faith, for the benefit of his creditors. The assignment is subject to the provisions of code relating to trust. A debtor may make an assignment without the consent of his creditors, but such assignment will operate as a discharge from his indebtedness only to the extent that the debts are actually paid by the assignee.

ATTACHMENTS may issue in actions when defendant has absconded or concealed himself or disposed of his property, or is about to, with intent to defraud his creditors. Plaintiff must furnish bond in not less than \$250 and amount of claims. Real and personal property of any description may be attached.

CHATTEL MORTGAGES.—A mortgage of personal property can be created, renewed or extended only by a writing subscribed by the mortgagor. A mortgage of personal property is void as against creditors of the mortgagor and subsequent purchasers and incumbrancers of the property in good faith and for value, unless it is filed by depositing the original, or an authenticated copy thereof, in the office of the register of deeds of the county where the property mortgaged, or any part thereof, is at such time situated; and it ceases to be valid, as against creditors of the mortgagor and subsequent purchasers or incumbrancers in good faith, after the expiration of three years from the filing thereof, unless within thirty days next preceding the expiration of such term a copy of the mortgage, and a statement of the amount of the existing debt, sworn to and subscribed by the mortgagor, are filed anew; this renews for three years more. A mortgage of personal property must be signed by the mortgagor in the presence of two persons, who must sign the same as witnesses thereto, and no further proof or acknowledgment is required. Personal property mortgaged may be taken under attachment or execution issued at the suit of a creditor of a mortgagor; before the property is so taken, the officer must pay or tender to the mortgagee the amount of the mortgage debt and interest, or must deposit the amount thereof with the county treasurer, payable to the order of the mortgagee.

CORPORATIONS are formed under general laws, or a special law for a particular corporation, by filing certificate and doing certain other acts. Each stockholder is individually and personally liable for the debts of the corporation to the extent of the amount that is unpaid upon the stock that is held by him.

DEEDS.—Conveyance can be made by husband to wife, or wife to husband; all rights of dower or courtesy are abolished. A written instrument is presumptive evidence of consideration. Witnesses or seals are not necessary to the validity of a deed or other instrument affecting title of real property, except wills.

EXECUTIONS.—Executions issued of course at any time within five years after judgment. After five years, leave of the court must be obtained, unless an execution issued within the five years has been returned unsatisfied in whole or in part, in which event another execution can be issued without leave. Land levied upon need not be appraised. Execution must be returned within sixty days from the date thereof. Lands sold on execution may be redeemed at any time within one year from time of sale.

EXEMPTIONS.—Personal and miscellaneous property to the value of \$1,500 to be selected by the debtor. The homestead, not exceeding 160 acres, or one acre if in a town, with buildings thereon, without limitation of value.

INTEREST.—Legal rate, 7 per cent. By contract, 12 per cent.

USURY.—If taken or contracted for above 12 per cent., interest forfeited.

JUDGMENTS.—A judgment of a court of record, or of a justice's court, is a lien on real estate of the defendant, except the homestead, for ten years from the time such judgment is docketed in the clerk's office of the District Court of the county where the

Digitized by the Internet Archive
in 2013

<http://archive.org/details/minnesotanorthso63unse>

land is situated. Judgments recovered in other States and Territories are proved by exemplification of the record, attested by the clerk, and the seal of the court annexed, if there be a seal, together with the certificate of the judge, chief justice or presiding magistrate, that the attestation is in due form. Judgments may be obtained within thirty days after service of summons and complaint in actions in a court of record, and within four days after service of summons in actions in justice's court, if there be no defense interposed.

JUSTICE'S JURISDICTION, \$100.

LIMITATIONS.—Actions for recovery of real estate must be brought within twenty years. Upon a sealed instrument or judgment or decree of any court of the United States, twenty years. Upon contracts, express or implied, six years.

MARRIED WOMEN may own, in her exclusive right and benefit, real or personal property, and may manage, sell and convey the same in the same manner as though unmarried. She may make contracts and incur liabilities, and the same be enforced by or against her the same as if unmarried. Neither husband nor wife has any interest in the property of the other. Neither are responsible for the acts of the other.

MORTGAGES.—A mortgage of real property can be created, renewed, or extended, only by writing, with the formalities required in the case of grant of real estate. The wife need join only in mortgage of homestead. Mortgages containing power of sale may be foreclosed by advertisement. Mortgages may be foreclosed by action, and a personal decree obtained in the same action against the mortgagor for any deficiency from the debt and cost arising on sale of the mortgaged premises. The mortgagee is entitled to rents and profits, but not to possession of the premises during the year of redemption after the sale. A mortgage of a homestead shall be of no validity unless the husband and wife, if the owner is married and both husband and wife are residents of this Territory, concur in, and sign the same joint instrument. The same right of redemption exists as in the case of sale under execution.

PROOF OF CLAIMS sent for collection may be made by deposition or by oral examination in court. Persons sending claims to Dakota for collection should be careful to furnish their attorney with the *full name*, christian and surname, and residence of the party in whose name the suit is to be brought. If the claim belongs to a partnership, the full name, christian and surname, and residence of each member of the firm, should be furnished. The attorney should be furnished with the names of the witness or witnesses, by whom the claim can be established, and the sale and delivery of goods proved. The affidavit of the party is not admissible evidence to prove the value, sale and delivery of goods. If the claim is disputed, it must be proved and established by the testimony of witnesses taken upon deposition after notice, or by oral examination of witnesses in court.

RECORDS.—Every conveyance of real property, other than a lease for a term not exceeding one year, is void as against any subsequent purchaser or incumbrancer, including an assignee of a mortgage, lease, or other conditional sale of the same property, or any part thereof, in good faith and for a valuable consideration, whose conveyance is first duly recorded. All instruments of conveyance of real property must be recorded with the register of deeds of the county in which the real property affected thereby is situated.

REDEMPTION.—Real property may be redeemed within one year after sale, with additional twelve per cent. interest, together with the taxes and accrued expenses thereon.

REVIVOR.—An acknowledgment in writing or payment of part principal or interest will revive a debt or claim.

STAY OF EXECUTION.—There are no stay laws; but an execution may be stayed by order of the court, for irregularity, or by injunction, or by appeal with security given.

WITNESS.—Party in interest may be.

R. L. POLK & CO'S DAKOTA GAZETTEER

AND BUSINESS DIRECTORY

FOR
1888.

In the following section of the work the cities, villages and postoffices of Dakota are arranged in alphabetical order, and a description is given of each place, with an alphabetical list of all persons doing business therein. In all the larger places the names have been procured by personal canvass, but in the smaller they have been furnished by postmasters. Great care has been taken to insure correctness as well as completeness.

ABBOTSFORD. A new postoffice in Benson county, 7 miles northwest of Minnewaukan, the county seat, shipping and banking point, on the N. P. R. R. James C. Gibson, postmaster.

ABBOTT. A discontinued postoffice in Barnes county, 17 miles north of Valley City, the county seat.

ABERCROMBIE. A station on the H. & D. div. C., M. & St. P. Ry.—85 miles from Ortonville and 14 from Wahpeton.

ABERDEEN. The judicial seat of Brown county, is a flourishing and important city located at the junction of the H. & D. and the James River divs. of the C. & M. & St. P. Ry. with the H. & O. br. of the D. C. div. of the C. & N. W. Ry., and is the terminus of the Aberdeen line of the St. P., M. & M. Ry. It is governed by a mayor and board of alderman—R. A. Mills, mayor; G. A. Outcalt, clerk; George Bolles, treas.; Ira O. Curtiss, marshal—and is a busy, rapidly increasing, industrial and commercial centre, located in the midst of one of the richest agricultural portions of this productive Territory, and with its natural advantages, increased transportation facilities, commanding position, and the

energy and enterprise of its citizens, will continue to develop more rapidly in the future than in the past, and is destined to be one of the largest cities in the Territory. It was first settled in 1881, and now contains 5 churches, graded public schools, good hotels, 4 banks, a flouring mill with a capacity of 200 barrels a day, 4 elevators, a planing mill, a plow factory, 2 brick yards, machine shops, 2 daily and 5 weekly newspapers, and numerous handsome and commodious business blocks, and elegant residences. The inducements to investing capital are of the most generous nature, and any legitimate enterprise locating here will receive a warm welcome and generous support. Tel., W. U., Exp., Am. Population, 5,600. Mail, daily. John H. Firey, postmaster.

BISMARCK. The territorial capital
and the judicial seat of Burleigh county, is
an incorporated city, located within 40
miles of the actual center of the Territory,
on the east bank of the Missouri river, and
on the N. P. and the A., B. & N. W. R. Rs.
In addition to the transportation facilities
afforded by the railroads, there is a boat
line via the Missouri river, plying between
this point and Fort Benton, Mont. The
city is lighted by electricity, has reservoir
water works, with 40 public hydrants, and
contains churches of the Baptist, Catholic,
Episcopal, Methodist and Presbyterian
denominations, graded public schools em-
ploying 8 teachers and having an average
attendance of 300 pupils, the territorial
penitentiary and capitol buildings, 4 banks
(3 national and 1 private), good hotels, a
planing mill, a brewery, a steam power
flouring mill, bottling works, 2 brick yards,
2 grain elevators, cold storage warehouses,
etc. The nature of the land in the vicinity
is a black loam clay subsoil, very deep and
productive, and extensive beds of coal un-
derlie a large area of the surrounding coun-
try. Improved land in the vicinity is
worth from \$10 to \$40 per acre, and wild
land from \$3 to \$10. Assessed valuation of
property, \$1,505,072; bonded debt, \$63,000.
The Lamborn Hospital, in charge of the St.
Benedict society is located here. Ships
wheat, hides, furs, wood and coal. Stages
to Pierre, Washburn and Ft. Berthold. Tel.,

Northwestern Grown Seeds.

WHOLESALE and RETAIL.

It has become an established fact that Seeds raised in the Northwest are Superior to all, and will Produce Earlier and Better Crops than any others. Thousands of planters who have tested them say so. If you have not yet given them a trial, do so at the first opportunity and be convinced. My catalogue is free to all applicants. Ready Jan. 1st, of each year. Send address at any time and your name will be entered on the great book, which will insure your receiving a copy of the next issue.

Structure of the cell wall of the plant is shown in the following diagram:

The diagram shows the structure of the cell wall of the plant. The outermost layer is cellulose, which is a polysaccharide made of glucose units. The next layer is hemicellulose, which is a polysaccharide made of xylose units. The innermost layer is pectin, which is a polysaccharide made of galacturonic acid units. The diagram illustrates how these layers are interconnected to form a strong, fibrous structure.

It contains smelting and stamp mills. Stages daily to Central City and Deadwood. Population, 600. J. W. C. White, postmaster.

WELL BORING TOOLS, { Chicago Tubular Well Works, PUMPS, PIPES, Etc. { 68 West Lake St., CHICAGO, ILL.

Chain.

AND BUSINESS DIRECTORY.

Chamberlain.

1159

CHAIN. A postoffice in Faulk county, 7 miles south of La Foon, the county seat and bank location, and 3 south of Miranda, the shipping point, on the C. & N. W. Ry. Mail, weekly.

CHAMBERLAIN. The judicial seat of Brule county, is a prosperous incorporated city, governed by a mayor and board of aldermen — S. J. Moyer, mayor; D. F. Burkholder, clerk; B. Case, marshal. It is advantageously located on the C. M. & St. P. Ry., and on the Missouri river, and is the headquarters for a number of steamboats doing an extensive river business, and has the finest wharf and landing on the Missouri river north of Kansas City, Mo. Three churches, a graded public school, 2 banks and 2 weekly newspapers, the *Dakota Democrat* and the *Register*, are sustained. Stages to Sturgis and Crow Creek. Tel., W. U. Exp., U. S. Population, 1,300. Wm. Gilman, postmaster.

Albrecht Charles, jeweler.

Albrecht Henry, meats.

Anderson & Kanudson (John F Anderson, Erick Kanudson), blacksmiths.

CURLEW. A station on the N. P. R. R., in Morton county, 46 miles west of Mandan, the county seat. No postoffice.

CUSTER CITY. The county seat of Custer county, was the first postoffice established in the Black Hills. The town was named after General Custer, who, on his military expedition, encamped for several days where the town now stands. Custer City is beautifully situated upon the valley of French Creek, and at an elevation of 5,500 feet. Its pure air and water, and the beautiful natural parks and scenery surrounding it, make it one of the most attractive places in the Hills. Gold and mica mines are in the vicinity and several companies are operating them successfully. There are 2 good hotels, one private bank, 3 churches, a good school and a weekly newspaper, the *Chronicle*.

DEADWOOD. The judicial seat of
 Lawrence county, and the metropolis of
 the Black Hills country, is located in the
 canyon of Whitewood creek, almost entirely
 shut in by the hills, 20 miles from the line
 of Wyoming Territory, 50 north of Custer
 City, 225 southwest of Bismarck, and 175
 from Chadron, Neb. The F., E. & M. V. R. R.,
 which is already completed to within 8
 miles of Deadwood, and which will soon
 reach here, will entirely do away with the
 disadvantages it has been subjected to in
 tedious and expensive freight and passenger
 transportation. The city is lighted by gas
 and electricity, has telephone connection
 with every town in the Black Hills and the
 mining camps in Lawrence county; has a
 splendid system of water works, the electric
 fire alarm system, a well equipped and
 efficient fire department, a high and ward
 schools, and a Catholic school in charge of
 the Sisters of the Holy Cross; has Metho-
 dist, Episcopal, Congregational and Catho-
 lic churches, a city hall, 2 opera houses, a
 flouring mill with a daily capacity of 200
 bbls., 2 planing mills, quartz mills, 2
 machine shops, a boiler works, 3 national
 banks, with aggregate deposits of \$450,-
 631.29; and capital and surplus of \$453,-
 474.69; and 2 daily and 3 weekly news-
 papers—the *Black Hills Pioneer* and the
Black Hills Times, issued daily and weekly;
 and the *Black Hills Herald*, issued weekly
 only. The hotel accommodations are ex-
 ceptionally good, the Keystone particular-

ly offering all the elegance and comfort of any eastern house. Since its first settlement in 1876, until the present time, Deadwood has maintained its position as the business, distributing and financial centre of this marvelously rich mining district. The products of the surrounding mines since their discovery 10 years ago aggregate over \$30,000,000, and this vast sum has been transmitted to the east through the banks and express companies in Deadwood. Fifteen hack and stage lines, conveying passengers and express, have their main offices in the city, and it is the headquarters of all the transportation companies. The Homestake mines are located at Lead and Central Cities, 3 miles southwest; the Galena silver mines 8 miles southeast, and the Carbonate camp 7 miles west, and although the mines in these several districts have been worked to a profit in the past, the development of the silver mines in Galena and the Carbonate camp has hardly begun, and the possibilities of the future in the development of its latent riches will yet astonish the world—more by its rapid strides in commerce and wealth in the years to come than the wonderful and marvelous changes that have been wrought in the past. Stages to all points in the hills. Tel., W. U. Exp., W., F. & Co. Population, 4,500. Mail, daily. Barclay P. Smith, postmaster.

Dear Sir,

I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the above matter.

I am sorry to hear that you are not satisfied with the result of the examination of the papers in your possession.

I have, however, no objection to your making such further inquiries as you may think proper.

I am, Sir, very respectfully,
Your obedient servant,
J. H. [Name]

Jamestown, the county seat and usual banking point. Exp., N. P. Population, 24. C. C. Cochran, postmaster.

Drake & Cochran, General Store.
North Dakota Elevator Co, grain.
Northern Pacific Elevator Co, grain.
Richmond Alfred, physician.

EGAN. Is located in the famous fertile Sioux Valley, in Moody county, 5 miles from Flandreau, the county seat, on the banks of the Big Sioux river, from which splendid water power is derived, and at the junction of S. C. & D. and S. M. divs. of the C., M. & St. P. Ry. Egan has sprung up from a mere hamlet to a bustling, important town in the course of a few years, and is possessed of a situation and railroad advantages which will ultimately make it a prominent centre and distributing point. A flouring mill and a tow mill are in full operation; a weekly newspaper, the *Express*, is published, and a bank, 2 churches—Methodist and Baptist—and good graded schools, are also here. The exports of the locality are flour, wheat, produce and live stock. Farming land is worth from \$8 to \$15 per acre. Exp., U. S. and Am. Population, 600. Mail, daily. H. E. Herren, postmaster.

ELLENDALÉ. A prosperous incor-
porated village, and the judicial seat of
Dickey county, is located on the H. & D.
br. of the C. M. & St. P. Ry., and on the Da-
kota extension of the St. P., M. & M. Ry.
It was incorporated in 1883, is governed by
a board of village trustees—Patrick King,
pres.; C. A. Kent, clerk; F. B. Gannon,
treas.; W. W. Sears, marshal—and con-
tains a number of churches, a graded public
school, 2 banks, 3 grain elevators, a roller
flouring mill with a daily capacity of 150
bbls., and numerous well stocked special
and general stores. Two live weekly news-
papers, the *Commercial* and the *Dickey County
Leader*, are published, and are ably edited
and progressive journals, deservedly popu-
lar among their numerous patrons. The
shipments, which are large, comprise wheat,
barley, oats, flour, flax seed and potatoes.
Land in the vicinity varies in price from
\$8 to \$15 per acre. Mail, daily to La
Moire, tri-weekly to Hoskins, and weekly
to Koto. Tel., W. U. Exp., Am. Popu-
lation, 1,100. Mail, daily. F. G. Horton,
postmaster.

FARGO. This enterprising, prosperous and important city, the commercial metropolis of the territory, is located in the extreme eastern part of Cass county, of which it is the judicial seat, on the Red River of the North, which is navigable at this point, and on the N. P. R. R., the C., M. & St. P. Ry. and the St. P., M. & M. Ry., and is, via the latter road, 242 miles northwest of St. Paul. It was first settled in 1872, and was a mere hamlet until 1875, from which time its growth commenced. It is now a live, bustling city, the receiving and distributing centre of the vast wheat region of the Red River valley, a granary unsurpassed on the face of the globe. It was incorporated as a city in 1875, is governed by a mayor and board of aldermen—A. W. Edwards, mayor; A. T. Shotwell, treas.; H. L. Maxy, auditor—and is well laid out and substantially built, and contains many fine business blocks and handsome residences. The principal architectural features are the court house and jail, costing \$130,000; 2 new iron bridges, besides 2 railroad bridges across the river, connecting the city with Moorhead, Minn.; 2 handsome school buildings, 3 fine brick

bank buildings, and a new hotel, built at a cost of \$100,000, the finest in the Northwest. The city is lighted by gas and electricity, has efficient fire and police forces, an excellent system of sewerage, telephone exchange, uses the Holly system of water works, and in fact possesses all the appointments and facilities of a thoroughly progressive commercial centre. The manufacturing and jobbing enterprises are assuming more importance day by day, and the future outlook is all that could be desired. Fargo is well located in every particular, admirably adapted for manufacturing and business of all kinds, is the natural market of a great territory towards which thousands of emigrants are daily moving, and which is still in the infancy of its development, has exceptional railway facilities, and can offer to the business man every advantage, to the home-seeker a pleasant and healthful location with all the social, educational and religious advantages to be desired. The city contains 10 churches, representing the Baptist, Congregational, Episcopal, Presbyterian, Methodist, Lutheran, Scandinavian Baptist, Swedish and Catholic denominations, good graded schools, 3 banks, 3 grain elevators, a board of trade, 3 daily, 1 monthly and 4 weekly newspapers, library and bar associations, a board of underwriters, United States land office, and the United States and territorial courts are held here. The bonded indebtedness is \$140,000, and the assessed valuation \$6,000,000. The exports, which are large, comprise wheat, oats, hay and produce. Tel., W. U. Exp., Am. and N. P. Population, 9,000. WATER TOWER

Water tower is a structure that stores water at a higher elevation than the surrounding area. It is used to provide water to homes and businesses. The water is pumped up to the tower and then flows down to the users. This is done to ensure that there is always enough water pressure to supply the water. Water towers are also used to store water for emergencies. They can hold a large amount of water, which can be used if there is a fire or other emergency. Water towers are an important part of many communities. They help to keep the water supply safe and ensure that there is always enough water to go around.

N. P. Refrigerator Co. Buildings,

Nos. 204-214 Front St., Fargo, Dakota.

RATES OF STORAGE.—Per month: Butter and Cheese, $\frac{1}{2}$ cent per lb.; Eggs, $\frac{1}{2}$ cent per doz.; Apples or Potatoes, 30 cents per bbl.; Beer, 30 cents per keg, car lots, \$50 per car; Raisins, Prunes or Grapes, $\frac{1}{2}$ cent; Oranges or Lemons, 50 cents per case; Dried Fruits, $\frac{1}{2}$ cent per lb.; Mince Meat, in kegs or bbls., $\frac{1}{2}$ cent per lb.; Fresh and Salt Meats, $\frac{1}{2}$ cent per lb.; Butter and Cheese in quantities of 14,000 lbs. or over will be continued in storage at $\frac{1}{2}$ cent per lb. per month or fractional part of a month, after having been held in storage three months. Goods will be received for storage for one day or a month. Three days will be allowed for removing goods after the expiration of any month, and charges will be renewed on all goods continued after this time. A discount of ten per cent from the above named rates will be allowed on all goods, except butter, cheese and eggs, if stored in carload lots. Cold storage room may be rented by the month. All storage bills are due on the first day of each month, or on the removal of goods. Should storage charges on perishable articles be allowed to accumulate to within half their value, this company reserves the right to dispose of same for account of owners to cover such charges.

GRAGREEN. Nine miles from Valley City, the county seat, in Barnes county, is a small settlement. The postoffice here has been discontinued.

GRAIN. Griggs county. Name changed to Picker.

GRAND CENTRE. In Grant county. 6 miles from Millbank, the county seat. Mail discontinued.

GRAND FORKS. This flourishing and important city was first settled in 1865, incorporated February, 1881, is governed by a mayor and board of aldermen—Hon. D. M. Holmes, mayor; M. L. Gorden, treas.; W. R. Bierly, auditor—and is located in the extreme eastern part of Grand Forks county, of which it is the judicial seat, and on the Red River of the North at its junction with Red Lake river, both of which are navigable at this point. It is an important station on the St. P., M. & M. Ry. and on the P. br. of the N. P. R. R., 89 miles east of Devil's Lake, 26 west of Crookston, Minn., 79 north of Fargo, 80 south of the international boundary line, and 320 northwest of St. Paul. Its exceptionally favorable location and unsurpassed transportation facilities, coupled with the energy and enterprise of its citizens, has made it largely a supply and distributing point for the counties north and west, and there is no city in the Territory with a greater extent of rich and rapidly growing country surrounding it, as there is no city with more natural advantages and so few disadvantages. This city contains 4 banks, 3 flouring mills, a foundry and a boiler works, 7 grain elevators, 3 saw mills, 9 hotels, 2 daily papers with weekly editions, the *Herald* and *Plainedealer*, an illustrated

weekly paper, the *Northwest News*, a Scandinavian paper, the *Nordmanden*, issued weekly, and the *Methodist Pioneer*, a monthly publication. A stock farm known as the Dakota Thoroughbred Cattle Nursery located near the city for the importation and breeding of thoroughbred cattle and horses, and is doubtless the most extensive in Dakota. Religion is represented by churches of the Congregational, Baptist, Episcopal, Presbyterian, Methodist Episcopal, Catholic, Scandinavian Lutheran and Methodist denominations, while the educational facilities comprise 2 school buildings erected at an aggregate cost of \$45,000 and employing 12 teachers, the University of North Dakota, a territorial institution located here in 1883, and the St. Bernard Ursuline Convent and College. The city is well laid out and compactly built, and contains numerous substantial business blocks and elegant residences; it is lighted by gas and electricity, has an excellent water supply from Red Lake river, a well equipped and efficient fire department, telephone exchange and all the facilities of a prosperous city. The 1887 assessed valuation was \$1,250,000, and the bonded indebtedness \$83,000. Wheat, lumber, flour, produce and live stock are extensively shipped. Tel., W. U. Exp., Am. and N. P. SAINT BERNARD'S URSULINE CONVENT AND COLLEGE, GRAND FORKS, DAKOTA.

This excellent Institution is under the charge of Ursuline Nuns, and is a Boarding and Day School. It is a large, handsome brick building, furnished with all Modern appliances for comfort; well ventilated, heated by steam, with spacious dormitories, bathing rooms, study and recreation halls; it combines all the advantages of a home, a convent and an educational institute of unquestioned excellence. The day pupils are brought to and from the school in a free bus during cold or inclement weather, although it is situated within the city limits.

Its course of studies is divided into two departments:—

PREPARATORY and COLLEGIATE,

And the faculty have full powers to confer the ordinary degrees. For particulars apply to the

The first part of the paper discusses the importance of the study and the objectives of the research. It highlights the need for a comprehensive understanding of the subject matter and the role of the research in advancing the field. The authors emphasize the significance of the findings and the potential impact on the industry and society.

The second part of the paper presents the methodology used in the study. It details the experimental design, the data collection process, and the statistical analysis performed. The authors provide a clear and concise description of the methods used to ensure the reliability and validity of the results.

The third part of the paper discusses the results of the study. It presents the findings in a clear and organized manner, highlighting the key observations and trends. The authors provide a detailed analysis of the data and discuss the implications of the results for the field.

The fourth part of the paper discusses the conclusions and future research. It summarizes the main findings of the study and provides recommendations for further research. The authors discuss the limitations of the study and the potential for future work to build on the current findings.

HOT SPRINGS. The seat of justice of Fall River county, in the Black Hills, 14 miles from Buffalo Gap, the nearest railroad station on the F., E. & M. V. R. R., with which place it is connected by a daily stage line. The Hot Springs as a watering place and health resort is rapidly gaining popularity, and every season is visited by a large number of people. The springs at this place are a marvel and are said to excel in curative qualities the celebrated Hot Springs of Arkansas. The water, as it boils from the ground, has a

temperature of 96°, and is so strongly magnetic and electric as to occasion a perceptible electric sensation to the bather. There are erected here several large hotels, for the accommodation of invalids and all who come to patronize the springs. Foremost of all is the Minnekahta Hotel—first class in every respect—erected by the Dakota Hot Springs Co. Population, 250. Express, Wells, Fargo & Co.

Splendid Table.*

RATES: \$2 to \$3 per Day, and from \$10 to \$18 per Week.

A Delightful Place to Spend a Day, a Week, a Month or the Season.

The scenery all about the Springs is not only grand, as mountain scenery usually impresses one, but it is beautiful as well. The ruggedness is softened by natural lawns, by small and richly green trees, by delightful glens and natural parks, fine drives and walks, with beauty everywhere, from the babbling brook to the rolling river, from the shaded mound in the glen to the rock-ribbed and rock-topped mountain, all within one sweep of the eye.

Withee & Gorton (Charles H Withee, Je-
rome B Gorton), blacksmiths.

HURON. The commercial metropolis
of Southeastern Dakota, and the judicial
seat of Beadle county, is an enterprising,
prosperous and rapidly increasing city, lo-
cated on the C. & N. W. Ry., which, with
its connections, affords the most ample
facilities for shipment. The St. P., M. &
M. Ry. is graded to Huron, and the rails
will be laid this spring. It is the head-
quarters of the Dakota div. of the C. & N.
W. Ry., and there are large railroad ma-
chine shops, round house, freight and emi-
grant houses, and residences for the divi-
sional superintendent and his assistants
located here. The benefits the city re-
ceives from its exceptional transportation
advantages can not be overestimated, and
this road and its branches are developing
some of the richest agricultural regions of
the Territory, and gathering into Huron an
immense and growing traffic. The United
States surveyor general's office, the office
of the Dakota Board of Agriculture, and a
United States signal office are here. The
city also contains 6 churches, 2 handsome
and commodious brick school buildings
with 11 teachers, a \$50,000 court house, a
well appointed opera house seating 1,000,
a large beef and pork packing establish-
ment, car, tree, wagon and ornamental
woodwork manufactories, 2 flouring mills,
a grain elevator, 2 grain warehouses, 2
brick yards and 4 banks. Three daily, 6
weekly and 2 monthly newspapers keep
the citizens informed on all the current
topics of interest. Coal has recently been
discovered in the vicinity, and a company
organized with a capital of \$500,000 are
sinking a shaft and using every means to
develop this valuable find. This has given
an added stimulus to business and manu-
facturing, and with the advantages of
cheap fuel, excellent railway facilities, the
certainty of a ready market and remunera-
tive prices for its products, its healthful
climate and excellent moral and education-
al advantages, and with a large extent of

rich and rapidly growing country tributary, it is safe to predict that Huron will rapidly take her place as one of the foremost cities of the great Northwest. The city is governed by a mayor and board of aldermen, the present officers being H. J. Rice, mayor; Alva E Taylor, clerk; Edwin H. Grant, treas.; S. Scott, marshal; is lighted by gas and electricity, has the Holly system of water works, an excellent system of drainage, street cars, telephone exchange, and all the appointments and facilities of a thoroughly prosperous business centre. Assessed value of real and personal property, \$1,515,878. Mail stages to Frankfort tri-weekly, and to Woonsocket semi-weekly. Tel., W. U. Exp., Am. Population, 5,000. Mail, daily. George J. Love, postmaster.

August 1, 1900
Dear Sir:
I have the honor to acknowledge the receipt of your letter of the 28th inst. in relation to the above matter.
I am sorry to hear that you are not satisfied with the results of the examination. I have had the same re-examined by a competent authority, and the results are the same.
I am, Sir, very respectfully,
Yours truly,
Geo. Vetter

McGRAWVILLE. A country post-office located in the northern part of Faulk county, 10 miles southwest of Vermont City, the nearest shipping point, on the C., M. & St. P. Ry. Mail by special supply.

McGUIRE. A postoffice in Kidder county, 10 miles south of Steele, the seat of justice, shipping and banking point, on the N. P. R. R. Mail, once a week.

McHUGH. Cavalier county. *Name changed to Langdon.*

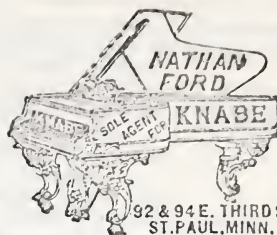

McRAE. A station and postoffice in Bottineau county, on the St. P., M. & M. Ry., 17 miles southeast of Bottineau, the county seat and nearest banking point. Mail, daily.

McVILLE. In Nelson county, 24 miles south of Lakota, the county seat, and 20 from Mapes, the nearest shipping point, on the St. P., M. & M. Ry. F. W. McDougall, postmaster.

MABEL. A recently established post-office in the western part of Hutchinson county, 9 miles east of Starr, on the C., M. & St. P. Ry., its nearest shipping point, and 14½ northwest of Olivet, the county seat.

MACY. A postoffice in Harding county, 40 miles north of Minnesela. Bank at Spearfish or Deadwood. Mail, once a week.

MADISON. To one unaccustomed to western push and energy the growth of this town would seem phenomenal. A few years ago what is now a thriving city was simply an ordinary patch of native pasture. It is the seat of justice for Lake county, and is on the J. R. line of the C., M. & St.

(See page 3.)

P. Ry., surrounded by a rich agricultural country, into which a constant stream of settlers is pouring. Supported by an intelligent and enterprising class of citizens, fully alive to the best interests of the city, and working harmoniously together for the advancement of the place, Madison promises to become one of the most important cities in Southeastern Dakota. It was incorporated in 1885, is governed by a mayor and council—N. H. Downs, mayor; L. H. Keene, clerk; M. L. Clark, treas.—and among the important features may be mentioned 5 banks, 2 weekly newspapers—the *Sentinel* and the *Lake County Leader*—2 grain elevators, lumberyards and an assortment of general and special stores, shops, etc. Five churches and graded schools are maintained. A State normal school was located here by act of the legislature of 1881, and is now completed; it is four stories high, has 500 sittings and presents a magnificent appearance. Land of a superior quality can be obtained in the neighborhood at \$5 to \$40 per acre. This is a stock raising section, and special attention is given to the breeding of thoroughbred and blooded stock. Stages to Sioux Falls and Arlington tri-weekly, and to Salem and Lake Preston semi-weekly. Exp., Am. Tel., W. U. Population, 2,000. Mail, daily. P. H. Harth, postmaster.

MANDAN. An incorporated city, and the judicial seat of Morton county, is located on the N. P. R. R., 5 miles west of Bismarck, and 474 northwest of St. Paul. It was incorporated in 1883, is governed by a mayor and board of aldermen—C. L. Meech, mayor; B. R. Granberry, clerk; P. W. McGillic, treas.—and contains the machine shops of the Mo. div. of the N. P. R. R., 6 churches, a graded public school, an opera house, a roller flouring mill, a grain elevator, 1 national and 2 private banks. There is a well equipped and efficient fire department, and an excellent system of water works. The press is represented by the *Pioneer*, issued daily and weekly, and the *Times*, issued weekly only. Exports grain and live stock. Coal is found in the vicinity. Daily stage to Ft. Abraham Lincoln, 5 miles south, and weekly to Stanton, 50 miles north. Tel., W. U. Exp., N. P. Population, 1,600. Mail, daily. Daniel Flynn, postmaster.

MANDAN PIONEER.

DAILY AND WEEKLY.

PUBLISHED BY

PIONEER PUBLISHING COMPANY, MANDAN, DAKOTA.

TERMS—Daily, \$9.00 per Annum; Weekly, \$1.00.

The PIONEER is the only Daily Newspaper published on the line of the Northern Pacific west of the Missouri River. It has kept up with the times by frequent enlargements of its pages, the addition of a first-class telegraphic service and an increase in its literary force. It now occupies the evening field in Mandan, and is looked up to by the people of the city and tributary country as being an organ of "light and leading." While recognizing the sterling prospects and advantages of the entire Territory, the PIONEER bends all its energies to promoting the interests of the West Missouri country.

The Weekly PIONEER gives unquestionably a better summary of the week's news than any other paper in North Dakota. It is a sheet of 56 columns. It has a large and rapidly increasing circulation, for its publishers, having their daily to select news from, are able to give a much larger and more valuable paper than they otherwise could.

MILLBANK. Dating its settlement from 1880, is an enterprising incorporated city, and the judicial seat of Grant county, located on the C. M. & St. P. Ry. It is governed by a mayor and board of aldermen—A. W. Glenn, mayor; A. J. Fairchild, clerk; J. L. Lockhart, treas.; John Lockwood, marshal—and contains the railroad machine shops and round house, 4 grain elevators, a steam power flouring mill, 3 banks, a feed mill, 3 public halls, a court house and 3 weekly newspapers. The rapidity with which this city has sprung up is marvelous, and with its railroad facilities and enterprising citizens' coupled with the well settled farming community tributary to its commerce, its future as an important point is assured. Wheat, grain and produce are shipped. Tri-weekly stage to Watertown, fare \$3. Tel., W. U. Exp., Am. Population, 1,700. Mail, daily. G. C. Middlebrook, postmaster.

MILLER. The judicial seat of Hand county, is a prosperous incorporated town, located on the D. C. div. of the C. & N. W. Ry., 40 miles from Huron and 60 from Pierre. It was settled in 1881, incorporated December, 1883, is governed by a mayor and council—O. P. Fearheiley, mayor; E. J. Miller, clerk; B. F. Stamm, treas.; Charles Tyson, marshal—and contains Catholic, Evangelical, Methodist and Presbyterian churches, a graded school, 3 banks, lumber yards, a roller flouring mill, an opera house, numerous well stocked special and general stores, workshops, etc., and an artesian well which supplies the town with abundance of water. Two ably edited and live weekly newspapers, the *Gazette* and the *Hand County Press*, are published. Land in the vicinity ranges in price from \$5 to \$15 per acre. Stages daily to Faulkton and tri-weekly to Kimball, Crow Creek and Wessington Springs. Tel., W. U. Exp., Am. Population, 1,100. Mail, daily. Alex. Green, postmaster.

MINNEWAKAN. Ramsey county.
Name changed to Devil's Lake.

MINNEWAUKON. The northern terminus of the J. & N. br. of the N. P. R. R., is the seat of justice of Benson county and is a thriving village containing a grain elevator, several special and general stores, a Presbyterian church, a public school, several hotels and a bank. A weekly newspaper, *Dakota Siftings*, is published. Stages tri-weekly to Dunseith, St. John, Cando, Bottineau, Villard, Newport, Mouse River, Turtle Mountains, Fort Totten. Grand Harbor and Devil's Lake. Minnewaukon is situated on the west shore of Devil's Lake, and is rapidly becoming a favorite summer resort. Exp., N. P. Tel., W. U. Population, 200. Mail, daily. For list of names see pages 34 to 46.

MINNIE LAKE. In Barnes county, 18 miles northeast of Valley City, the judicial seat, and 13 from Tower City, the nearest railroad approach and bank location, on the N. P. R. R. Semi-weekly stage to Tower City. E. Priest, postmaster.

MINOT. A prosperous and enterprising incorporated city, located near the central part of Ward county, in the fertile Mouse River valley, at the terminus of the Dakota division of the St. P., M. & M. Ry., 7 miles

from Burlington, the county seat, 10 from Devil's Lake, and 523 from St. Paul. Although little more than a year old, Minot has sprung up to a city of note and importance as if by magic, is steadily increasing, and now contains Catholic, Methodist and Presbyterian churches, a public school, a bank with a capital of \$100,000, 6 hotels, a brick yard, a saw mill, a brewery, a thorough representation of all the learned professions and of the minor branches of commerce, and an ably edited and progressive newspaper, the *Tribune*. It was first settled in October, 1886, was incorporated as a city July, 1887, and is governed by a mayor and board of aldermen—J. H. Scofield, mayor; Wm. Collins, clerk; P. H. McNamara, treas. The natural advantages of the city are very great, situated, as it is, in the midst of a rich agricultural district for which it is the receiving and distributing point, and having in the immediate vicinity vast deposits of coal of a soft lignite quality, which only requires capital to develop and make one of the best paying industries in the Territory, its future as a manufacturing and commercial centre is assured. Land in the vicinity is worth from \$5 to \$8 per acre for unimproved, and \$25 to \$30 per acre for improved. Ships grain, produce, live stock and coal. Stages tri-weekly to Forman and Burlington. Tel., W. U. Exp., Am. Population, 2,000. Mail, daily. P. H. McNamara, postmaster.

MIRANDA. A station on the C. & N. W. Ry., in the southeastern part of Faulk county, 6 miles south of La Foon, the seat of justice.

MITCHELL. A prosperous incorporated city, the metropolis of the James River valley, was settled in the fall of 1879, incorporated in 1881, and is governed by a mayor and board of aldermen — T. F. Mentzer, mayor, D. W. Ward, treas.; J. F. Kimball, clerk. It is the county seat of Davison county, and is located at the

junction of the H. & D. and the I. & D. divs. of the C., M. & St. P. Ry., at the point where that road crosses the James river on its way to the Black Hills, and is the terminus of the C., St. P., M. & O. Ry. It is a busy industrial centre, having within its limits several hotels, 3 banks, 3 newspapers, the *Capital* (weekly), *Republican* (daily and weekly), and the *Mail* (weekly), 6 churches, good public schools, the Dakota University, occupying a \$75,000 building; a creamery, brick yard, soda water manufactory, a roller flouring mill, machine shop, planing mill, broom factory, a court house, a public hall and a number of well stocked special and general stores. The shops and round house of the C., M. & St. P. Ry. Co. are located here. The neighboring country is fertile and productive, and large quantities of grain and live stock are raised and exported. The whole of this fine agricultural area is tributary to the commerce of Mitchell, and its future will surely be bright and prosperous. Land in the vicinity is worth from \$10 to \$20 per acre. Stages tri-weekly to Grand View, and semi-weekly to Vilas. Exp., Am. and U. S. Tel., W. U. Population, 4,000. Mail, daily. A. A. Hammer, postmaster.

sey county.

PARK RIVER. A flourishing town
located on Park river, and on the St. P., M.
& M. Ry., in Walsh county, 17 miles west
of Grafton, the seat of justice, and 37 north
of Larimore. It is governed by a board of
trustees—James L. Currie, pres.; T. Han-
son, treas.; C. S. Stranahan, clerk—and
contains Baptist, Methodist and Presby-
terian churches, a public school, 2 banks, 4
grain elevators, and a live weekly news-
paper, the *Gazette*. More grain is shipped
from here than from any other town in the
surrounding country, and it is a good point
for a flour mill, which is much needed.
The assessed valuation of real and personal
property is \$800,000. Tri-weekly stages to
Grafton, fare \$1.50. Tel., W. U. Exp.,

Pembina.

AND BUSINESS DIRECTORY.

Pembina.

1893

PEMBINA. A prosperous incorporated city governed by a mayor and board of alderman—Judson La Moure, mayor; G. W. Ryan, treas.; W. Feldman, recorder. It is the judicial seat of Pembina county, and is located on the Duluth & Manitoba R. R., in the extreme northeastern part of Dakota Territory, at the junction of the Pembina with the Red River of the North, and opposite St. Vincent, Minn. It is one of the oldest settlements in the territory, and has long enjoyed considerable trade from the influx of immigration to the northern part of Dakota and Manitoba. Has Catholic, Presbyterian and Methodist churches, good schools, a national bank, a steam flouring mill, numerous well stocked general and special stores, and a live weekly newspaper, the *Pioneer-Express*. Wheat is extensively shipped. Daily stages to Hamilton and Neche, and tri-weekly to Drayton. Tel., W. U. Exp., Am. Population, 800. Mail, daily. E. K. Cavileer, postmaster.

Abrams J Henry, insurance agt.

I solicit your correspondence. Will furnish references and guarantee satisfaction.

D. div. of the C., M. & St. P. Ry., in the northwestern part of Day county, 7 miles north of Andover, the nearest postoffice and bank location.

PIERRE. The judicial seat of Hughes county, is a prosperous incorporated city, advantageously located on the north bank of the Missouri river and on the D. C. div. of the C. & N. W. Ry., about midway between Yankton on the south and Bismarck on the north, being 300 miles from the former and 350 from the latter. On the organization of Hughes county, in November, 1880, Pierre was made the county seat, and although of but recent origin, its progress has been wonderful. It is the headquarters for the Black Hills trade, and of the wholesale and jobbing interests of central Dakota. It contains many substantial business blocks, 5 churches, a graded public school, 3 hotels, 1 national and 3 private banks; the Pierre University occupying a \$50,000 building, a handsome court house, street railway, an excellent system of water works and 4 live weekly newspapers, the *Signal*, the *Free Press*, the *Journal* and the *Ruralist*. The city is governed by a mayor and board of aldermen — A. W. Johnson, mayor; W. D. Percival, clerk; H. G. Hollenback, treas. — and ships live stock, produce and some grain. Tel., W. U. Exp., Am. Population, 2,800. Mail, daily. E. B. Miller, postmaster.

RAPID CITY. The judicial seat of Pennington county, Black Hills, 45 miles southeast of Deadwood, on the F., E. & M. V. R. R. It is beautifully located on Rapid creek, the largest stream of water in the Black Hills, which furnishes excellent water power. It is called "Gate City of the Hills," being located on the main entrance to the Hills and the mining districts, and is surrounded by a fine farming and grazing country. The city is thriving and the people are industrious and enterprising. The Dakota School of Mines and Metallurgical College are located here. It is a mining town and has the usual volume of business in various general and special stores, a flouring mill—the Gate City Roller Mills—a planing mill, 2 national banks—the Black Hills and First National—4 good hotels, of which the Harney and International are first class, 3 weekly and 2 daily newspapers—the *Black Hills Journal* and the *Black Hills Republican* (daily and weekly), and the *Black Hills Democrat* (weekly)—a good school and 3 churches. The exports consist of live stock, mica, tin and gold. The city is lighted by electricity and has telephone connection with all parts of the Black Hills. Exp., Wells, Fargo & Co. Tel., W. U. Population, 3,500. Mail, daily. Gustavus Schnasse, postmaster.

 nearest railroad and banking point, on the
 C., M. & St. P. Ry. Semi-weekly stage
 to Millbank. Population, 10. John Mar-
 tens, postmaster.

ST. LAWRENCE. One of the most
 substantial and progressive towns in central
 Dakota, is located on the C. & N. W. Ry., in
 Hand county, 2½ miles east of Miller, the
 county seat. It contains 2 churches, a
 graded public school, a public hall, 2 grain
 elevators, 2 roller flouring mills with a com-
 bined daily capacity of 275 barrels, numerous
 well stocked special and general stores,
 2 ably edited and progressive newspapers,
 the *Dakota State Journal* and the *Saturday
 Tribune*. The town was incorporated in
 1886, and is governed by a board of trus-
 tees—J. H. Baldwin, chairman; P. T. Der-
 flinger, clerk; J. A. Vrooman, treas.; C. H.
 Dawson, marshal. Stages to Odessa and
 Burdette tri-weekly, and to Hopland
 weekly. Tel., W. U. Exp., Am. Popu-
 lation, 500. Mail, daily. P. T. Derflinger,
 postmaster.

JAMES H. EASTON, Pres.

JOHN SCHMIERER, Vice Pres.

F. G. HALE, Cash.

BON HOMME COUNTY BANK, Of SCOTLAND, DAKOTA. CAPITAL STOCK, \$50,000.

Transact a general banking business. Buy and sell exchange on all the principal cities of this country and Europe. Collections made and remitted for promptly.

Wild land and improved farms bought and sold. Investments made for eastern parties in first mortgage loans on improved farms. The attention of investors especially invited and correspondence solicited.

DIRECTORS: Jas. H. Easton, Pres. First National Bank, Decorah, Ia; T. W. Burdick, Cash. Sault Ste. Marie National Bank, Sault Ste. Marie, Mich.; C. E. Dickerman, Capitalist, St. Paul, Minn.; F. G. Hale, Cash. Scotland, Dak.; John Schmierer, V. Pres. Scotland, Dak.; Henry Sieler, Gen. Merchant, Scotland, Dak.; H. A. Reeves, Hardware Dealer, Scotland, Dak.

CORRESPONDENTS: American Exchange National Bank, New York; First National Bank, Chicago, Ill; First National Bank, Sioux City, Ia.

JOHN KRAUSE, SCOTLAND, BON HOMME CO., DAKOTA. First Mortgage Loans, Real Estate, Collections and Insurance. COLLECTION OF MACHINE NOTES.

Moneys loaned on good farm property and first class investments made for eastern parties a specialty. Taxes paid for non-residents and their interests protected by prompt attention to all business intrusted to me. Having been a resident in this locality for the past eleven years I have a personal knowledge of lands in Yankton, Bon Homme and Hutchinson counties.

All interest on real estate loans negotiated by me, and taxes thereon, looked after free of expense to eastern investors.

REFERENCES: First National Bank, Sioux City, Iowa; First National Bank, Yankton, Dak.

HENRY SCHATZ, JR., Real Estate, Loan, Collection & Insurance Agent, SCOTLAND, DAK.

A residence of over fifteen years in Dakota gives me unsurpassed facilities for doing a general real estate business, making profitable investments and safe loans for non-residents and eastern capitalists desirous of making loans in Southern Dakota on improved farm land. Emigrants looking for homes should apply at my office at an early date.

SIOUX FALLS. This enterprising, vigorous and rapidly growing city is located in the southern part of Minnehaha county, of which it is the judicial seat, on the S. C. & D. div. of the C., M. & St. P. Ry. at the point of intersection of the S. F. br. of the C., St. P., M. & O. Ry., on the I. F., C. R. & N. of the B., C. R. & N. Ry., the Rock Island system, on the C. & D. br. of the Illinois Central system, and on the south bend of the Big Sioux river. The falls are within half a mile of the business centre of the city, and are in power second only to those of St. Anthony at Minneapolis; their supply is constant the year round, and their picturesque beauty can be compared to nothing in this part of the country. The Sioux Falls Water Power Company have erected an immense stone mill, 80 by 100 feet, 7 stories high, at a cost of \$500,000, and having a capacity of 1,200 barrels a day; and another mill, with a capacity of 160 barrels daily, is in operation here. The former is known as the Queen Bee, the latter as the Cascade mill. Six other water powers exist within a few miles. The city contains five banks—the Citizens National, Sioux Falls National, Dakota National, Minnehaha National and Sioux Falls Savings Bank. Eight newspapers—the *Press* and the *Argus-Leader* (daily and weekly), the *Land and Labor News* and the *Dakota Zeitung* (weekly), the *Educational Echo* (bi-weekly), the *Minnehaha Teacher* (weekly), the *Vesterheimen* (weekly), and the *Church News* (monthly)—are published. The religious advantages consist of 15 churches, representing the following religious denominations: Methodist Episcopal, Baptist, Unitarian, Free Methodist, Presbyterian, Swedish Lutheran, Norwegian and Scandinavian Lutheran, Adventist, Episcopal, Catholic, Christian Reformed, Seventh-day Adventist and Congregational. The graded school building is a fine structure, and cost \$30,000. There are stone quarries in the vicinity, and a very valuable quality of stone is obtained. Among the noticeable buildings of the place are the Van Eps, Insurance Co. of Dakota, Masonic Temple blocks, built of solid brick, iron and plate-glass fronts, elegantly fitted and furnished with every convenience for the transaction of business. The Dakota Penitentiary, located here, is built

Chicago Saloon and Store Fixture Co.
O. A. Hilgerman, Manager,
217 First Ave. N., Minneapolis, Minn.

Counters, Shelving and Ice Boxes.

Rt. Rev. W. H. HARE, D. D., President.

THE location is exceptionally fine. Sioux Falls is a town beautifully situated at the Falls of the Sioux river, which, within the limits of the city, plunges ninety feet over rocky rapids and cascades. The building stands on an elevated and commanding site, looking down Main street. It is quite in the country; yet within ten minutes' walk from the center of the city.

The building, constructed in the most substantial manner of the celebrated Sioux Falls jasper, is one of the most beautiful in the Northwest. It is heated by steam, lighted by gas, and supplied with wholesome, delicious water from a well on the grounds of the school. Bath rooms are conveniently placed throughout the building, and especial attention has been paid to secure *perfect ventilation, drainage and safety from fire.*

The interior, with its chapel, wide halls, warm, well lighted parlors, dining room and school rooms, is carefully finished and arranged with an especial view to making this an attractive, cheery home.

The dormitories are divided into alcoves, each furnished with a clothes press, bed, washstand, mirror, bowl and pitcher.

One large room will also be devoted to the use of girls, already members of the school, whose deportment during the past year entitles them to especial confidence.

A scientific cabinet has been formed consisting of 225 alcoholic specimens of marine invertebrates; 150 specimens of alcoholic specimens of vertebrates representing the lower orders and including most of the North Atlantic coast fishes; 500 minerals and fossils, and an herbarium including specimens from the East and South, and a set of the plants mentioned in the Bible.

Through friends of the school a good library has been started, containing at present about two hundred and fifty volumes.

Every effort will be put forth to make this a *home school of high grade*, where the pupils will be surrounded with elevating influences and wise discipline, and the results sought will be thorough mental training, physical development, refinement of feeling and manners, and sound Christian character.

Collects Rents. Pays Taxes. Business of Non-Residents Solicited. Best of References.

CHEAP FARM LANDS

In a splendid section of country, in Minnehaha and adjoining counties, near Sioux Falls, the great railroad
centre and metropolis of Southeastern Dakota. Five great systems of railroads enter this city and it is
growing rapidly, and now is the time to buy these lands while they can be had at low prices. I have im-
proved and unimproved lands in large quantities which will surely increase in value and suit you; also city
property in large quantities. For further information, write or call at my office, near Cataract House, Sioux
Falls, Dakota. I refer to any bank or newspaper here. Send for pamphlet.

DAKOTA TERRITORIAL NORMAL SCHOOL,
AT SPEARFISH.

DAKOTA

TERRITORIAL NORMAL SCHOOL

AT SPEARFISH.

This Institution is located in one of the most beautiful and healthful cities of the Black Hills. Its main object is to fit students for school teaching, yet it is believed to offer superior advantages to those who wish merely to obtain a thoroughly useful education. Such persons will not be refused admission so long as the accommodations of the school permit.

Applicants for admission must pass a fair examination in arithmetic to percentage, composition, and geography. Students prepared to do so will enter advanced classes. Tuition is free to all students in the Normal Department who sign a declaration of intention to teach in the Territory. Others pay a tuition of \$5 per term. Text-books are furnished at a rental of \$1.50 per term.

THE COURSE OF STUDY

Requires three years for its completion. It embraces a thorough and scientific knowledge of the common school branches, a drill in the most important academic studies, a course in mental philosophy and methods of teaching, and actual practice in teaching in excellent model schools, under the supervision of experienced critics.

A PREPARATORY DEPARTMENT

Is maintained for the accommodation of those who, through lack of educational advantages, have been unable to secure the preparation required for admission to the Normal Department.

A COMMERCIAL COURSE

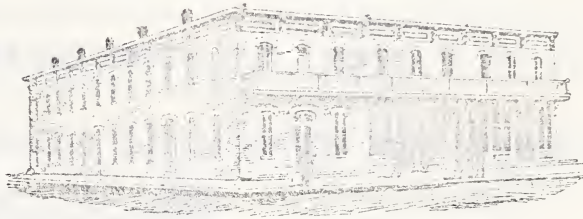

Has been arranged for those who wish merely to obtain a practical business education. It embraces Commercial Arithmetic, Commercial Law, Business Forms and Correspondence, Penmanship, Bookkeeping, Typewriting, and (for those that desire it) Shorthand Writing.

Board, including furnished room, fuel and lights, can be obtained at from \$4 to \$5 per week.

For further particulars, apply to

STURGIS. This prosperous and rapidly increasing town, is located in the central part of Lawrence county, 14 miles from Deadwood, the seat of justice. It is a station on the F., E. & M. V. R. R., and the transfer point of all passengers and freight, via the N. W. E. & S. Co., to Deadwood and the mining camps. The town is growing in wealth and importance, and now contains 4 churches, good schools, 2 banks, steam planing and feed mills, and a thorough representation of the various lines of business. Two ably edited weekly newspapers, the *Advertiser* and the *Record*, are published. The price of real estate is steadily advancing, the constant increase in population and industrial pursuits is encouraging, and its transportation facilities, the energetic spirit of its business men and its wonderful mineral and agricultural resources, are the best guaranty that its future progress will be all that could be desired, even by its most sanguine well-wishers. Silver ore and wheat are shipped. Daily stages to Deadwood and Spearfish. Telephone connection with all points in the Black Hills. Tel., W. U. Exp., W., F. &

VERMILLION. A city situated at
 the confluence of the Missouri and the Ver-
 million rivers, in the southern part of Clay
 county, of which it is the seat of justice,
 and on the S. C. & D. div. of the C., M. &
 St. P. Ry., midway between Yankton and
 Sioux City, Iowa. It is prosperous and
 growing, has Baptist, Methodist, Episcopal,
 Catholic and Congregational churches,
 good school facilities, 2 banks, 2 news-
 papers—the *Republican* and *Plain Talk*, 3
 hotels, a public hall, brick yard, and a good
 number of stores, mechanics shops, etc.
 The University of Dakota, a building cost-
 ing \$60,000, the finest in the Territory, is
 located here. Communication is had with
 the Nebraska shore by a steam ferry, and
 there is stage communication with every
 point in the county. The business part of
 Vermillion, which was built on the Mis-
 souri bottom land, was completely swept
 away by the floods of 1831, but has now
 been built up in a much more costly and
 substantial manner on the high bluffs
 near the river. Hay, grain, flax, produce
 and live stock are shipped. Exp., U. S.
 Tel., W. U. Population, 1,500. Mail,
 daily. Freeman H. Perry, postmaster.

Agersborg Gabriel S, veterinary surgeon.
 Akeley Lewis E, prof natural sciences,
 University of Dakota.
 Allen Mary E, associate prof of ancient lan-
 guages, University of Dakota.
 Anderson Charles T, sewing machines.
 Anderson Thomas B, carpenter.

VOLIN. A new postoffice and station in Yankton county, on the C. & N. W. Ry., 14 miles from Yankton, the county seat and bank location.

VOLNEY. A postoffice in Hand county, 25 miles northwest of Miller, the seat of justice, and 15 northwest of Ree Heights, its shipping and banking point, on the C. & N. W. Ry. Stages semi-weekly to Ree Heights. Population, 20. R. H. Pickering, postmaster and general store.

WAHPETON. The judicial seat of Richland county, is a thriving incorporated city, advantageously located on the Red River at the confluence of the Bois de Sioux and Otter Tail rivers, and on the N. P. R. R., the C. & N. W. Ry. and the St. P. M. & M. Ry., 47 miles south of Fargo and 217 from St. Paul. It was first settled in 1874, has progressed rapidly, is governed by a mayor and board of aldermen—G. D. Swaine, mayor; Charles E. Bade, clerk; Wm. North, treas.—and contains 6 churches, good public and Catholic schools, 4 banks, 2 machine shops, 6 hotels, 3 grain elevators, a wagon manufactory, a brewery, and numerous well stocked general and special stores, etc. Three weekly newspapers, the *Times*, the *Richland County Gazette* and the *Dakota Globe*, are published. Excellent water works furnish the citizens with an abundant supply of pure water, and afford ample protection from fire. Good arable land in the vicinity is worth from \$10 to \$50 per acre. Wheat, flour and flax are the principal shipments. Tel., W. U. Exp., Am. and N. P. Population, 2,000. Mail, daily. B. C. Wilson, postmaster.

WATER TANK. On the C. & M. & St. P. Ry., in Grant county. The postal name is Twin Brooks.

WATERTOWN. The commercial metropolis of Central Dakota, and the judicial seat of Codington county, is situated on a plateau of beautiful ground bordering the Big Sioux river, 3 miles west of Lake Kampeska, one of the handsomest sheets of water in the Territory, and which is a favorite summer resort for invalids and sportsmen. It is an important railway centre, and has the following lines radiating here from all points of the compass: the B., C. R. & N. R. R., the M. & St. L. Ry., St. P., M. & M. Ry. and the C. & N. W. Ry., while two other lines are in course of construction and will reach here shortly. The city was platted in September, 1878, since which time its growth has been phenomenal, and it now contains handsome and substantial business blocks, elegant private residences, churches of the Methodist, Baptist, Congregational, Christian, Episcopal, Catholic, and German and Scandinavian Lutheran denominations, 3 public schools employing 10 teachers, 3 opera houses, a business college, 1 private and 3 national banks, a telephone exchange, electric light, 8 hotels, an United States land office, a board of trade, a \$25,000

ABERDEEN, DAKOTA.

I solicit your correspondence. Will furnish references and guarantee satisfaction.

court house and 4 newspapers, the *Courier-News* (daily and weekly), the *Journal-Democrat*, the *Public Opinion* (weekly), and the *Conklin Dakotian* (monthly). Water works costing \$75,000 will be completed in 1888, and a street railway is projected. There are 8 elevators and grain warehouses, a feed and oat meal mill, foundries and machine shops, a sash, door and blind factory, a plow and harrow manufactory, a wagon and carriage factory, a roller flouring mill with a daily capacity of 300 barrels, a broom factory, the only paint, putty and varnish factory west of the Mississippi river. bottling works, cigar factories and numerous other industries of minor importance. It is the trading centre of a rich agricultural and stock raising district, the products of which are grain, live stock and produce, and are exported from here in large quantities. Improved land in the vicinity is worth from \$15 to \$50 per acre, and unimproved from \$10 to \$15, and is constantly increasing in value. Its natural advantages and unexcelled transportation facilities make the city a choice location for manufacturing enterprises, wholesale houses and business of all kinds. The inducements to investing capital are of the most generous nature, and any legitimate enterprise will receive a cordial welcome from a liberal people, with all the social, religious and educational advantages to be desired. The assessed valuation is over \$1,000,000; bonded debt, \$5,000. Tel., W. U. Exp., Am. and U. S. Population, 5,000. Mail, daily. L. N. Thomas, postmaster.

YANKTON. The judicial seat of Yankton county, and the former seat of the Territorial government of Dakota, is located on the north bank of the Missouri river, in a prairie country, surrounded on every side by gently sloping hills, while southward, across the river, in Nebraska, stretches the broad valley of the Missouri. All this territory, which is rapidly settling up, is tributary to Yankton. It is also the rendezvous of the steamers plying on the Upper Missouri, and is a station on the S. C. & D. div. of the C., M. & St. P. Ry. The Central Pacific has also surveyed a

O. C. JEWETT, ARCHITECT, ABERDEEN, DAKOTA.

Isolicit your correspondence. Will furnish references and guarantee satisfaction.

branch of their main line from Corrine, Utah, to Yankton, and the C. & N. W. Ry. have constructed a branch from Centreville to this point. The Dakota Hospital for the Insane is located here. The city contains 12 churches, good public schools, an Indian school, 5 hotels, social, fraternal and benevolent organizations, many elegant stores and private residences, 4 banks, steam flouring mills, 2 grain elevators, a woolen mill, brick yards, a tow mill, library and reading rooms, public halls, and a full representation of all the leading trades and professions. The *Daily and Weekly Press* and *Dakotian*, the *Weekly Telegram* and *Weekly Herald*, and the *Freie Presse* and *Dakota Post* (German), are published. The Congregationalists have erected a college near the city. The system of water works is by means of a large artesian well, situated on the adjacent high ground, giving about 50 feet fall. The country around is a fine agricultural and stock raising region, and the shipments, consisting of grain, live stock and produce, are very large. It is connected with the Nebraska side by a steam ferry. It has stage communication with all parts of the country, and is the postal focus of a large part of Southern and Southeastern Dakota. Exp., U. S. and Am. Tel., W. U. Population, 5,000. Mail, daily. L. D. Palmer, postmaster.

Adams Frank W, painter.

"LAGA," For the Blood. "VALMA," For Nervous Debility. "MELLA," For the Urinary Organs.

THE Wise will understand the Object and Value of these three genuine Medicines.
 "LAGA" will cure all Impurities and Taints of Blood and Skin of every kind.
 "VALMA" will restore lost vital energy and cure every form of Nervous Exhaustion and Nervous
 Debility.
 "MELLA" will cure all forms of Urinary Diseases.
 These are genuine medicines and require no puffing. They are, for their respective purposes, the very
 best that money, skill and experience can combine. These medicines are now brought within the reach of
 every class, after being tested in thousands of cases by most eminent physicians, and found to be the very
 best that money can buy or skill compound. These medicines can only be bought at the office of the
 Company.

MONTANA.

There is no political division of the United States, and hardly of North America, more interesting than the present territory of Montana. True, it is excelled in size by Texas, California and Dakota, yet it is a magnificent empire in extent, having an area of 146,080 square miles. It is considerably larger than the six New England states, and New York, New Jersey, Delaware and Maryland taken together. It stretches from 44° 15' to 49° north latitude, and from the 104th to the 116th meridian of west longitude. But it is not alone in size that it possesses interest. It surpasses most of the other states and territories in diversity of surface, peculiarities of climate, and wealth of resources. It is, at once, an agricultural, pastoral, forest and mineral region, and in all these respects ranks high—is, indeed, superior. The soil of its numerous wide and lengthy valleys is not excelled for fertility; its table-lands afford the finest pasturage found in this quarter of the world; its forests contain abundance of valuable timber, and its mountains are storehouses of untold and unknown mineral wealth. Here are found almost inexhaustible supplies of bituminous and lignite coal, the veins already opened varying in thickness from two or three to upwards of seven feet, and improving rapidly in quality as they recede from the surface of the mountain slopes, where they are exposed to view. Gold and silver in profuse abundance is known to exist in numerous localities, and large quantities of these metals and of copper have already been obtained from Montana mines. But the country is yet new; much of its surface has not been explored, and, so far, prospecting for minerals has been confined almost wholly to hunting for the precious metals. Those who are best informed, and whose examinations have been made with a view to discovering the resources of the territory rather than for their own enrichment, express confidence in the existence of a variety of other metals and valuable mineral products. Building stone of excellent quality, and the best of clays, are also abundant in many localities. Indeed, it is believed that the mineral wealth of Montana exceeds in quantity and variety that of any other equally extensive portion of the world, not excepting even Mexico or Peru.

Approaching the territory from the east, north of the Missouri river, the traveler gradually passes from the high table-lands of north Dakota into a still more elevated region, forming the divide between this great river and the Saskatchewan, which drains the basin of the northwestern Canadian provinces, and except the greater elevation and the occasional groups of hills, which latter become more numerous and prominent as he proceeds, there is really but little difference in the general appearance and character of the country until he reaches the foot hills of the Rocky mountains, three-fourths the distance across the territory. This portion of the country may be described, in general terms, as rolling prairie, and, except in the valleys of its few streams in the eastern and central portions, and of the Marias river and its tributaries near the mountains, it is too scantily watered for successful agriculture; indeed, it is generally pronounced only suitable for grazing, and much of it is possibly too dry even for good pasturage. That portion of it lying between the Marias and Missouri rivers, and watered by the Teton and Sun rivers, is hilly and broken, but contains several valleys well adapted to farming, and the yields of all kinds of cultivated crops in these are simply immense. These tracts are extensive and make a very considerable aggregate of excellent farming land. South of the Missouri river and between it and the Yellowstone, from their junction a few miles east of the eastern boundary, for nearly one-third the distance across the territory, and thence between the Musselshell river, a tributary of the Missouri from the south, to the outlying mountain ranges nearly as much farther west, is another high plateau, broken by occasional short ranges of hills and isolated buttes. This is much of the same character as that north of the Missouri—very little of it, and that only in the valleys of the two.

main rivers, being adapted to agriculture; most of it, however is excellent for grazing. Between the Musselshell and Missouri rivers from their confluence to the sources of the former, is a somewhat extensive tract of fertile land, although a good deal of this portion is occupied by the Big and Little Belt, Highwood, Snowy and Crazy mountain ranges, and the surface generally is broken and rugged. West of the main ridge of the Rocky mountains, which crosses the territory from northwest to southeast, about three-fourths the distance of its width from the eastern boundary, and between it and the Bitter Root range, which forms the western boundary, there is a wide table-land, drained by Bitter Root river, a tributary of the Columbia, whose waters empty into the Pacific ocean. Generally the surface of this portion is also rugged and often mountainous, but scattered through it are a number of arable districts, the soil of which is exceedingly rich. Its elevation, which is nowhere less than 3,500 feet, renders it incapable of producing the variety of cultivated vegetation grown in localities of lower altitudes; but for small grain crops, potatoes and other hardy varieties of vegetation, it is well adapted and produces abundant yields. It is, however, for the most part, a timbered region, and but little of it is counted in the computation of the agricultural area of the territory given below. South of the Yellowstone river, from the Black Hills of Southern Dakota to the main divide of the Rocky mountains, comprising little more than one-sixth of the entire territory, the country is crossed from south to north by the Powder, Big Horn, Tongue, Clark's Fork and Rosebud rivers, the valleys of which afford a good deal of tillable land, though generally narrow, and although the surface here is also rugged and often mountainous, it contains a fair proportion of excellent agricultural and pasture lands.

CLASSIFICATION OF THE SURFACE.

A loosely estimated classification of the surface divides its 93,500,000 acres into 10,000,000 agricultural, 38,000,000 grazing, 12,000,000 forest and 5,000,000 mineral lands, the remaining 28,500,000 acres being regarded as either too rough and mountainous, or too arid for use. It is claimed, however, that more thorough acquaintance with and experience in the country will be likely to greatly reduce the estimate for the latter class; and when we reflect that these figures are made by those far more familiar with the fertile, undulating plains of the countries intermediate between Montana and the Mississippi river, than with wooded and mountainous regions, it may well be supposed that they have exaggerated to the prejudice of this territory.

CLIMATIC PECULIARITIES.

While the summer's heat and winter's cold are both extreme in this region, elevated to an average height of nearly 4,000 feet, the climate is certainly healthful for man and beast. The mean annual temperature for the entire territory is 46° Fahrenheit. The coldest localities are in the east, where the elevation is least, and in the west, where it is greatest, the belt which crosses the territory east of the foot of the mountains being the warmest portion. The chinook winds prevail here, and are always several degrees warmer than the local atmosphere. They contribute greatly to modifying the temperature.

Nor is this an arid region, in the sense usually attached to that word, although the atmosphere is dry and the rain fall averages only about 14 to 16 inches annually. According to a reputable authority, the average deposit of moisture, in the different seasons, is about as follows: 4.82 inches in the spring, 3.80 in summer, 3.25 in autumn, and 2.70 in winter. The spring deposit, however, frequently exceeds 5, and that of summer 4 inches, and the snow fall in winter varies widely in different seasons. In different localities, also, the rain fall varies very much. The northeastern is the driest part, the belt immediately east of the mountains having much more abundant spring and summer rains, while the most snow falls in the mountain districts. In the Yellowstone valley, near the mountains, the average precipitation, as ascertained at Fort Keogh, is 24.6 inches. North of the Missouri river, and in some other localities in the eastern part, irrigation is necessary for successful agriculture, but there are but few places, within what are regarded as agricultural districts, where this can not be inexpensively accomplished. The soil of the prairie country is, like that of Dakota and Minnesota, a drift formation, and, where sufficiently watered, equally fertile. In the valleys further south and west it contains a larger percentage of vegetable mould, and is remarkable for its richness. Its color is frequently almost black, and its fruitfulness is proved by cultivation to equal that of the highly cultivated and expensively fertilized farm lands of France and Belgium.

DEVELOPMENT.

Except that this territory was briefly described in their report to the war department, by Lewis and Clarke, two army officers who were dispatched on an expedition to explore the Missouri river, cross the Rocky mountains and proceed to the Pacific coast, in 1804, little was known about it until the surveys of a route for the Northern Pacific railroad began to be made, in 1855 or 1856. In the intermediate interval it had been penetrated by several military expeditions, seeking routes for wagon roads to the western side of the continent, and by missionaries and fur traders, but the results of their observations never came before the public in such shape as to attract attention. Hence, it was practically an unknown region until 1861, when the rich gold placers of Little Prickly Pear creek were discovered by attaches of the railway surveying parties. Their find soon became noised abroad, and within a few months a number of adventurers were on the ground hunting for deposits of the precious metal quite as eagerly as did the Spaniards of the sixteenth century, in Mexico and Peru. These hardy men defied alike Indians and the elements in their quest for wealth, and the successes of those first upon the ground soon induced others to follow. It is from this period that the history of Montana must date. But even then, it will be little else than recitals of mining successes and failures, skirmishes with Indians, and gambling, robberies and murders among the lawless crowds who flocked thither in the hope of amassing sudden wealth. It was, really, not till near the close of that decade, when the route of the railroad was definitely determined upon and its early construction assured, that settlers began to arrive with a view of taking claims and making permanent homes for themselves within its boundaries.

AGRICULTURE.

Yet, in 1870, the United States census enumerators found here 851 farms occupying 139,537 acres of land, more than half of which (87,674 acres) were improved! The value of these farms is stated to have been \$729,193, and of the farm implements and machinery in use upon them, \$145,438. The crops of 1869 were 85,756 bushels barley, 988 bushels buckwheat, 320 bushels corn, 149,367 bushels oats, 1,141 bushels rye, 181,184 bushels wheat, 18,727 tons hay, 600 pounds tobacco, and 91,477 bushels potatoes. The live stock consisted of 5,289 horses, 475 mules, 1,761 oxen, 12,432 cows, 22,545 cattle, 2,024 sheep, and 2,599 hogs, valued in the aggregate at \$1,818,693. There were also 100 pounds wool, 408,080 pounds butter, and 25,603 pounds cheese returned.

In the succeeding ten years the development of the territory was wonderful. The gold and silver product of 1880 was \$4,710,835, and the coal and copper (both entirely new branches of industry) were valued at \$800 each. The number of farms had increased to 1,519, covering 405,683 acres of land, with 262,611 acres improved, and the aggregate of their values was \$3,234,504. The machinery and implements in use were worth \$401,185. The crop products were 39,970 bushels barley, 437 bushels buckwheat, 5,649 bushels corn, 900,915 bushels oats, 430 bushels rye, 469,688 bushels wheat, 63,947 tons hay, 228,702 bushels potatoes. The dairy products were 403,738 pounds butter, and 55,570 pounds cheese; and there were 995,484 pounds of wool. The number of horses was 35,114; of mules, 858; of oxen, 936; of cows, 11,308; of other cattle, 160,143; of sheep, 184,277; and of hogs, 10,278, making an aggregate value of \$5,151,554. The total value of farm products was \$2,024,923, and of manufactures, \$1,835,867. Total population at that date, 39,157.

Since 1880 the ratio of development has been very considerably accelerated. The auditor's report for 1885 gives the area of lands, in farms, as 919,072 acres, valued (with the improvements) at \$7,710,346. The town lots and improvements were valued at \$8,411,975, making a total realty valuation of \$16,152,321. The live stock comprised 114,925 horses, 2,444 mules, 798,682 sheep, 613,882 head of cattle, and 16,226 hogs, of which the assessed value was \$20,156,168, and the approximate market value, it is safe to conclude, at least one-sixth larger. An estimate based on the then current prices makes it \$24,132,110. The amount invested in manufactures in 1885 was \$341,727, and the value of the products, \$2,345,700. The output of the mines is claimed to have been worth fully \$27,230,000. Another evidence of the rapid development is given in the auditor's report, in the statement that the total assessments of property for 1882, 1883, 1884 and 1885, were respectively \$32,211,319, \$44,698,461, \$49,746,269 and \$52,847,536.

There were then 780 miles of railway in operation, and every settlement possessed postal and telegraphic facilities. Schools were established in all the villages, and the comfort and luxuries of civilized life were within the reach of even the frontier inhabitants.

RECENT PROGRESS.

Since 1885 the progress of Montana has been in even greater ratio than previously. A very conservative estimate of the population, based on the votes cast at the election last year, puts the number of white inhabitants at 130,000, but the true figures are, no doubt, close upon 150,000. There are two cities in the territory, Helena, the capital, and Butte City, the manufacturing emporium, whose aggregate populations can scarce be less than 40,000; eight or nine others (cities and villages) contain from 1,000 to 10,000; still thirteen others have between 500 and 1,000; twenty-eight from 200 to 500; thirty-nine more than 100, and about 150 others from 25 to 100. Its railway mileage was increased during 1887 alone by 616 miles of new road, giving it a total length now of about 1,720 miles of well built railroads. Some \$5,000,000 in value were added last year to the assessable wealth of the territory, notwithstanding the heavy losses in live stock occasioned by the severity of the winter of 1886-'87. This brings the total assessed valuation up to \$59,450,582. In 1886 it was \$54,976,870, the increase being \$4,473,712 during the year, as against an increase of \$2,129,334 the preceding year.

LIVE STOCK INDUSTRY.

There was a considerable falling off in the number of cattle, on account of the heavy losses during the winter, and closer sales which had been made in the fall of 1886. The number of cattle shipped to market during 1887 was upwards of 50,000 head, and about 10,000 head were consumed at home; the average selling price being fully \$30. This shows an income of some \$1,800,000 from this single industry. The growth of the sheep industry in the two years shows a gain of 263,459; notwithstanding the large numbers sent to market, the number assessed last year being 1,062,141. Horses and hogs have also increased in about the same ratio as hitherto. The business of sending hogs to market has not yet been inaugurated in the territory, although the animals do well there.

FARMING OPERATIONS.

As already indicated, farming operations are confined to the valleys and bench lands, but the growth of agriculture has kept pace with the general progress of improvements. The number of farms is not known, but their aggregate approximates 1,050,000 acres, and their valuation (with improvements) \$10,956,000. Wheat, oats, rye and barley yield magnificently, from 40 to 60 bushels per acre of the former being frequently obtained. Corn, potatoes and a variety of garden vegetables are also produced abundantly, and their quality is excellent. About all the cultivated varieties of small fruits and berries grown in Minnesota, do equally well or better in Montana, and the experiments made with apples encourage the belief that the hardier varieties of this fruit may be grown here without difficulty.

MINING AND LUMBERING.

During the past year the mines of Montana have yielded \$18,466,513 worth of silver, \$5,496,126 of gold, and \$6,000,000 of copper. This is a considerable increase over the product of 1886, but nothing like as much as is likely to be produced during 1888. Until quite recently mining has been pursued here under the disadvantages of insufficient transportation facilities, and a want of necessary machinery. Now that these are supplied, it may reasonably be expected that the product will be largely increased. No reliable statistics of coal mining are published, though it is well known that considerable progress has been made. So far, however, it seems that the entire product has been consumed within the territory.

SOCIAL AND EDUCATIONAL.

The social condition of the people is vastly different from what it was even a year or so ago. Recent additions to the railroads have brought nearly all the settlements within easy reach of railway stations and placed it in the power of the people to supply themselves more readily with the conveniences and luxuries of civilized life. The increase in the number of inhabitants, too, has added to the facilities for social intercourse, even in frontier localities, and been followed by the establishment of additional schools and religious organizations, all tending to add to the opportunities for enjoyment. It must not be supposed, however, that the territory has been without schools and social advantages hitherto. On the contrary, public schools were established almost as soon as the gov-

ernment was organized, and they have been and continue to be increased as rapidly as required. They are good schools, too, and in charge of capable teachers, who are paid much higher salaries than the average received in the states. There are likewise a considerable number of denominational schools, especially in the larger cities, together with several institutions where the higher branches are taught. The cities also have commodious and handsome churches, and well attended Sabbath schools. Nor do they lack for libraries, lectures, theatres, social clubs, newspapers, etc. Most of the newspapers, and some thirty odd are printed in the territory, are well printed and ably conducted, and nearly all are liberally sustained. Montana has, in fact, passed beyond that rude stage of existence common to all newly settled countries, and its present population is composed generally of intelligent, law-abiding and order-loving people, noted for their thrift, enterprise and industry.

MONTANA COLLECTION LAWS.

Revised by J. J. McHatten, of the Butte City Bar.

ARREST. For fraud in contracting a debt, or concealing or fraudulently disposing of the indebted property, or attempting to do so, subjects offender to arrest.

ASSIGNMENTS AND INSOLVENCY. There is no insolvent debtor law.

ATTACHMENTS. All property not exempt from execution may be attached by filing sufficient bonds in double the amount claimed, if it be less than one thousand dollars; if more than one thousand dollars and less than ten thousand dollars, then in amount claimed; and an affidavit showing that defendant is indebted to plaintiff upon a contract, express or implied, for the payment of money, gold dust, or other property then due, which is not secured by a mortgage, lien, or pledge upon real or personal property; or if so secured, the security has become insufficient by the act of the defendant or other means. Attachments may also be had before demand is due; if defendant is leaving, or about to leave the territory with all his or her property, moneys or other effects which might be subjected to the payment of the debt, for the purpose of defrauding his creditors; or that defendant is disposing of, or about to dispose of his property subject to execution, for the purpose of defrauding his creditors, which must appear by affidavit. At any time after judgment, upon an affidavit being made by plaintiff or someone in his behalf that defendant has property not exempt from execution which he conceals or refuses to apply on the judgment, the court will issue an order of examination and bring the party before it, when an examination as to such property under oath will be had of the defendant and any witnesses which either party may desire to have examined, and if the defendant has any such property the court will order it applied to the satisfaction of the judgment, and if defendant refuses to do so will commit him as for contempt until he does so.

CHATTEL MORTGAGES must be filed within the county, and are good for one year and 60 days only. Must be sworn to by the parties thereto that the same is made in good faith, to secure the amount named therein, and without any design to hinder or delay the creditors of the mortgagor. The time on the mortgage so made may be extended not to exceed one year by the mortgagee making and filing an affidavit before the same is due that the obligation has not been discharged, the amount yet due, and naming the time to which it has been extended, also giving the time when the mortgage was executed.

EXEMPTIONS. Usual personal schedule; and to farmer, implements, stock, seeds, etc., \$800; tools, teams and libraries of mechanics, business and professional men; dwelling of miner, \$500, his tools and machinery, \$500, also team; homestead, 160 acres in country, $\frac{1}{4}$ acre in city, value each, \$2,500. Such exemption does not affect the lien of any mechanic or laborer, or mortgage lawfully obtained. These exemptions shall only apply to married men or the head of a family, and none of the personal property herein mentioned shall be exempt from attachment or execution for the wages of any clerk, mechanic, laborer or servant.

INTEREST. Ten per cent.; but contracts for greater rates legal. No usury laws.

JUDGMENTS. From the time the judgment is docketed in the District Court it

becomes a lien upon all the real property of the judgment debtor not exempt from execution, in the county, owned by him at the time, or which he may afterwards acquire, until the lien expires. A certified transcript of the docket filed with the clerk of District Court of another county gives a similar lien from the date of such filing until its expiration. The lien expires in six years from the docketing of the judgment.

JUSTICE'S JURISDICTION, \$300. Probate Court's jurisdiction, \$500.

LIMITATION OF ACTIONS. Upon contract or account not in writing, 3 years; contracts, obligations or instruments in writing, judgments and decrees of any court, 6 years.

MARRIED WOMEN. Wife's property, acquired at any time, her separate estate, provided it is specified in a list and recorded as such. Is not liable for debts of husband. Married women have the same rights regarding property as they would if sole.

NOTES AND BILLS. Foreign and inland bills of exchange and promissory notes are negotiable; commercial paper is subject to the law merchant as to protest, grace, etc.

PROOF OF CLAIMS. All that is necessary is to send the original instrument, in case the demand is in writing, to the attorney; if an open or stated account, an itemized statement of the whole transaction. In all cases give name of firm and full name of each member of firm. If claimant is a corporation, give style of corporation and the source of its existence, and, if possible, in case suit is desired, refer the attorney to two responsible parties within the Territory, who will become security on attachment bonds.

REDEMPTION. Lands sold under execution, 6 months.

REVIVOR. Part payment, acknowledgment or promise in writing.

STAY OF EXECUTION. Discretion of court.

WITNESS. Parties to a suit are fully competent to testify.

W. R. SWEM, REAL ESTATE AND LOANS

Investments made for non-residents. Select Mortgages on city property always on hand. Merchandise stocks a specialty. We also deal extensively in improved farms and wild land.

Room 65, Loan and Trust Building,
MINNEAPOLIS, - MINNESOTA.

The Minneapolis School of Fine Arts.

1021 HENNEPIN AVENUE.

(PUBLIC LIBRARY BUILDING.)

DOUGLAS VOLK, DIRECTOR.

This school is conducted on the same plan as the best art schools East, Mr. Douglas Volk having been instructor for several years in the Cooper Institute and other schools of New York.

The very best instruction is given both to beginners and advanced pupils. Send for circular which gives full particulars and terms.

The school has superb quarters in the elegant new Library Building.

TERMS OF COURT.

In Supreme Court, August term, 1885. Ordered that terms of the District Courts be held at the following times and places until the further order of said court:

FIRST DISTRICT.

Dawson county, at Glendive—Third Monday in May; fourth Monday in November.
Custer county, at Miles City—Third Monday in April; fifth Monday in October.
Yellowstone county, at Billings—First Monday in March; third Monday in October.
Gallatin county, at Bozeman—First Monday in May; first Monday in November.
Madison county, at Virginia City—Third Mondays in April and October.

SECOND DISTRICT.

Silver Bow county, at Butte City—First Mondays in March, August and October.
Beaverhead county, at Dillon—First Monday in April; first Monday in October.
Missoula county, at Missoula City—Second Mondays in June and November.
Deer Lodge county, at Deer Lodge City—First Mondays in May and December.

THIRD DISTRICT.

Lewis and Clarke county, at Helena—First Mondays in March, July and November.
Jefferson county, at Boulder Valley—Third Mondays in April and September.
Meagher county, at White Sulphur Springs—Fourth Monday in April; second Monday in September.

Choteau county, at Fort Benton—First Tuesdays after first Mondays in April and September.

Fergus county, at Lewistown—First Monday in April and fourth Monday in September.

AND BUSINESS DIRECTORY

FOR
1888.

In the following section of the work the cities, villages and postoffices of Montana are arranged in alphabetical order, and a description is given of each place, with an alphabetical list of all persons doing business therein. In all the larger places the names have been procured by personal canvass, but in the smaller they have been furnished by postmasters. Great care has been taken to insure correctness as well as completeness.

ADOBETOWN. In Madison county, 2½ miles northwest of Virginia City, the county seat and bank location, and 55 east of Dillon, the nearest railroad station, on the U. P. Ry. Stages to Virginia City and Dillon. N. Carey, postmaster.

Cameron Daniel, blacksmith and carpenter.

Carey Nicholas, Grocer.

Monsane L, grocer.

Quivereux F, grocer.

AINSLIE. On the N. P. R. R., and on the Yellowstone river, in Custer county, 19 miles northeast of Miles City, the county seat and nearest banking point. Postoffice discontinued. Send mail to Miles City.

ALBRIGHT. A farm house postoffice in Custer county, on the Yellowstone river, 35 miles southwest of Miles court house, the location of the nearest bank, and 3 from Rosebud, the nearest railroad approach, on the N. P. R. R. Ann E. Simpson, postmaster.

ALHAMBRA. Formerly known as Clancy, is situated on Prickly Pear river, and on the N. P. R. R. and the M. C. Ry., in Jefferson county, 12 miles north of Boulder Valley, the seat of justice. Bank at

Helena. Stages daily to Boulder Valley, Butte City and Elkhorn. Exp., U. S. Mail, daily. W. Reading, postmaster.

Bremen & Coffee, lumber.

French W G, saloon.

Glass Charles, lumber and general store.

Hartwell J W, lumber.

Haynes M A, live stock.

Reading Wilson, Hotel.

Sanford & Evans, lumber.

SchAAF A, miner.

Winslow C C, live stock.

ALLARD. A discontinued postoffice in Dawson county. Send mail to Glendive.

ALLEN. A station on the N. P. R. R., in Missoula county, 103 miles northwest of Missoula, the county seat. No post-office.

ALLERDICE. On the U. & N. br. of the U. P. Ry., in Beaver Head county, 48 miles south of Dillon, the county seat and nearest banking point. Population, 200. Tel., W. U. Exp., Pacific. E. Ripley, postmaster.

Berger M, general store.

Bernstein Wm, general store.

HAXTON STEAM HEATER CO.

Contractors for

STEAM HEATING APPARATUS

and Supplies,

215 Second Avenue South,
MINNEAPOLIS, MINN. (See page 6.)

Cleve Robert, barber.
Gallagher Richard, saloon.
Garland Wm & Son, saloon.
Hanson J, wagonmaker.
Hopkins W T, hotel.
McGowan J B, blacksmith.
Peat John, hotel.
Posson E M, saloon.
Ripley & McNeal, Grocers.
Utley & Patterson, meat market.
Wong Au, baker and laundry.

ALPINE. In Fergus county, on Ford creek, 22 miles east of Lewiston, the county seat and banking point, and 109 from Junction, the nearest rail approach, on the N. P. R. R. Tri-weekly stages to Junction. A. M. Coder, postmaster.

ALZADA. Formerly known as Stoneville, is in Custer county, 140 miles south-east of Miles City, the seat of justice, and 68 from Deadwood, Dak., the nearest rail approach. Bank at Spearfish, Dak. Stages tri-weekly to Miles City and Spearfish. Population, 100. F. C. King, postmaster.

Austin & Ripley, saloon.
Casey J F, blacksmith.
King F C, livery.
King I G, livery.
Moss J B, general store.
Westland Mrs, laundry.

AMAZON. A station in Jefferson county, on the N. P. R. R., 24 miles west of Helena. No postoffice.

AMESVILLE. A new postoffice in Beaver Head county, 34 miles southwest of Dillon, the seat of justice, and 10 northwest of Red Rock, its shipping point, on the U. P. Ry. Bank at Dillon.

ANACONDA. An important town on the Montana Union Ry., in Deer Lodge county, 25 miles southwest of Deer Lodge City, the county seat, and 27 northwest of Butte City. It is noted as the location of the great works of the Anaconda company, which are the largest of their kind in the

world. The Anaconda mine is situated at Butte City, the ore from which, with that of the St. Lawrence mine, supply the greater portion of the ore treated at this works. Custom ores from the rich mineral belt in the vicinity are also treated. The company are handling over 70 cars of ore per day at the smelter, which means the constant employment of 3 switch engines to bring the ore to the works, amounting to 2,100 tons of copper ore daily. The company have recently added a new building 162x350, which contains, besides concentrating apparatus, stamps and pans for the treatment of silver ores. These ores are obtained partly from the upper levels of the Anaconda, which was originally opened as a silver mine, and partly from other claims owned by the company. The full capacity of the works is 25,000 tons of copper and 180 of silver ore per day. The Anaconda mine at Butte employs 650 hands, and the smelting works here over 800. The town has a large number of thriving business houses, Christian and Methodist churches, good schools and a weekly newspaper, the *Review*. Population, 4,000. Tel., W. U. Exp., U. P. Mail, daily. B. F. Mahan, postmaster.

Anaconda Brass Band, Fred Linden ldr.
Anaconda Brewery, R Fenner propr.
Anaconda Fluming Co (capital, \$150,000), A W McCune pres, Henry Geigerich sec.

BILLINGS. The judicial seat of Yellowstone county, is a prosperous incorporated city, advantageously located on Yellowstone river and on the N. P. R. R., 238 miles east of Helena and 917 from St. Paul. It is the second largest shipping place for live stock, on the line of the N. P. R. R., and one of the largest wool markets in the territory, over 1,500,000 pounds having been shipped from here last year. It is the receiving and distributing point for the stock ranges of Eastern Montana and Northern Wyoming, and has in the vicinity immense deposits of coal, marble, limestone, etc., and the Rocky Fork & Crook City Railroad, which, it is expected, will be in

running order during 1888, will open up this vast district. The city contains 4 churches, a school house erected at a cost of \$10,000, a court house and jail costing \$30,000, 2 banks, numerous well stocked special and general stores, and 2 live newspapers, the *Daily Gazette* and the *Montana Stock Gazette*, the latter issued weekly. It is lighted by electricity, has the Holly system of water works, and ships cattle, sheep, horses and wool. Stages daily to Fort Benton and Maiden, and semi-weekly via Red Lodge to Mee-tee-tse, Wyo. Exp., N. P. Tel., W. U. Population, 1,500. Mail, daily. Lucius Whitney, postmaster.

138 E. Fifth Street, St. Paul, Minn.

miles from Helena, and 1,057 from St. Paul. It is in the famous Gallatin Valley, whose fertility is proverbial, and which produces over one-half the grain produced in the Territory; is rapidly growing in wealth and importance, and will continue to develop more rapidly in the future than in the past. Its principal features are 2 banks, a brewery, brick yards, stone quarry, wagon factory, saw and planing mills, commodious court house, school and church buildings. The Bozeman Academy, under the auspices of the Presbyterian church, is a prominent educational feature. The city hall now being erected will cost \$30,000, and the second story will be fitted up as an opera house. Another important enterprise is the Bozeman & Butte Short Line, which has been surveyed, and when built will be 97 miles in length and will traverse a great mining country. Two live weekly newspapers, the *Avant Courier* and the *Chronicle*, are published, and are potent, progressive, influential journals, ably edited and conducted. Surrounded as it is by a large section of rich agricultural country, unsurpassed in the Territory, for which it is the receiving and distributing point, and possessing, as it does, advantages of location, ample shipping facilities, excellent water power and a good supply of coal in the immediate vicinity, Bozeman is destined to become, at no very distant date, one of the great cities of the Northwest. The shipments, which are large, comprise grain, coal, brick, live stock and general produce. Daily stage to Virginia City, fare \$10. Exp., N. P. Tel., W. U. Population, 3,500. Mail, daily. R. P. Menefee, postmaster.

postmaster. For Business Directory see Butte City.

BUTLER. A station on the Rocky Mt. div. of the N. P. R. R., in Deer Lodge county, 13 miles west of Helena. No postoffice.

BUTTE CITY. The judicial seat of Silver Bow county, takes its name from a cone-shaped mountain, or "butte," situated about 1 mile west of the city. It is built upon a gently sloping arm or spur of the Rocky mountains, the main divide of which is about 3 miles distant to the north. Its altitude is 5,800 feet above the sea level, and it overlooks the beautiful Summit valley, while Silver Bow creek flows at the foot of a hill a mile away. It has a southern exposure and natural drainage, and with its pure, bracing, invigorating atmosphere it is, when the ordinary sanitary laws and regulations are observed, one of the healthiest cities in the union. The Montana Union is the only railroad at present entering the city. The Montana Central will shortly be completed to Butte, and several other roads are projected, and will doubtless be built at an early day. It was first settled in 1864 by placer miners, and for a number of years was a steady producer of gold. It remained a gold mining camp composed of a few straggling log houses until 1875, when the building of the Centennial Mill, followed by the building of the Dexter, the Old Lexington and Burlington mills, all of which were completed early in 1876, turned the attention of silver miners and capitalists to the place. Prospecting for silver lodes and silver mining now commenced in earnest, and with the completion of the Alice mine, in October, 1877, Butte at once took a position as one of the prominent silver mining centres in the West. Since the latter date the growth of Butte has been simply phenomenal. From an almost unknown placer mining camp of a decade ago, it is now one of the most active, enter-

prising and prosperous cities in the West, and stands at the head of all mining camps upon the continent except Leadville. By an act of the Territorial legislative assembly approved February 21, 1879, Butte City, containing an area of 183 83-100 acres, was incorporated. Under the charter granted it is governed by a mayor and city council, the former elected every year and one-half, the latter biennially. By an act of the legislative assembly, approved February 16, 1881, the county of Silver Bow was created out of the southern portion of Deer Lodge county, and Butte made the seat of justice. It contains churches of the Baptist, Catholic, Congregational, Episcopal, Methodist Episcopal and Presbyterian denominations. The educational facilities are of a superior order, the schools of Butte ranking second to none in the West, employing a corps of 31 teachers and having school property valued at \$75,000. Butte has three banks: Clark & Larabee's, the First National and Hoge, Brownlee & Co.'s. Their aggregate deposits, subject to check, amount to over \$3,500,000. The city has numerous handsome and substantial business blocks, elegant private residences, a jail and court house built at a cost of \$155,000, 3 opera houses, the Turnverein Hall, good hotels, a street railway, a board of trade, a night and day telephone service connecting all parts of the city with Helena, Deer Lodge, Anaconda, Philipsburg and other points, and a district telegraph service is also in operation. The city is lighted by both gas and electricity. A gas plant, which includes 3 miles of main and lateral pipes, was laid during the year 1885, at a cost of \$50,000. The streets of the city are lighted at night by 13 arc lights. The Silver Bow Water Company, at a cost of \$80,000, brought water into the city from Bull's Run creek, a mountain stream about 8 miles distant; mains and hydrants are placed in all parts of the city, and fire plugs upon the principal street corners; the pressure at the plugs is from 50 to 75 pounds to the square inch, which makes it impossible, with the assistance of the present effective fire companies, for an extensive or destructive conflagration to

live. It has 3 ably edited and progressive newspapers, the *Inter Mountain* (daily and semi-weekly), the *Miner* (daily and semi-weekly), and the *Mining Journal* (semi-weekly). The Masons, Knights of Pythias, Odd Fellows, Knights of Labor, United Workmen, Brotherhood of Locomotive Engineers, Foresters, Hibernians and several other charitable organizations have prosperous lodges in the city. The Miners' Union, composed of miners, has a membership of 1,500. - The mineral belt is about 4x6 miles in extent, and the number of claims surveyed for patents in the vicinity of Butte is about 900, and the most productive and valuable of these which are being worked, are within a radius of three miles from the centre of the city. There are nine silver mills which are constantly going, and which use about 700 tons of ore per day. They are the Alice, Moulton, Lexington, Old Lexington, Silver Bow, Dexter, Clipper, Marget Ann and Blue Bird, with an aggregate of 375 stamps. Butte has 4 smelting works, and 3,000 miners, woodchoppers and teamsters are kept employed, and the pay rolls of the various mining companies aggregate over \$600,000 per month. Stages daily to Woodville, Basin, Boulder Valley, Elkhorn, Wickes, Sheridan, Virginia City and Gregson's Hot Springs, and semi-weekly to Pipestone Springs. Tel., W. U. Exp., N. P. Population, 24,764. CASCADE. A station on the Montana Central Ry., in the western part of Cascade county, 28 miles southwest of Great Falls.

CASTLE MOUNTAIN. A new silver and coal mining camp, in Meagher county, 100 miles east of Helena. Altitude about 6,000 feet. The first mines were discovered by George P. Roberson and Lafayette Hensley, in July, 1885. First cabin built, June, 1887, and in December, 1887, it contained sixty buildings. The only line of communication is via White Sulphur Springs, 30 miles; thence to Townsend, 40 miles. The inhabitants of Livingston have raised \$2,000 to open a new road upon which a stage line will be run as soon as finished. This will shorten the distance several miles.

Hensley Bros, miners.
Lewis & Chapin, miners.
Roberson George P, miner.

CASTNER. A discontinued postoffice in Meagher county. Send mail to Fort Benton.

CECIL. A discontinued postoffice in Lewis and Clarke county. Send mail to Augusta.

DEER LODGE CITY. One of the oldest settlements in the Territory, is situated in the southeastern part of Deer Lodge county, of which it is the county seat. It is a station on the Montana Union Ry., 11 miles south of Garrison, the junction of that road with the N. P. R. R., 62 from Helena, and 1,217 from St. Paul. It is noted for its educational advantages, the College of Montana, with Rev. D. J. McMillan as president, being located here. It also has St. Mary's Academy, conducted by the Sisters of Charity, and a good public school erected at a cost of \$35,000. The churches sustained are the Christian, Catholic and Episcopal; the first named have a good church building and a large following. There are a number of good business blocks and public buildings. The Court House, a fine structure, cost \$80,000. It is also the location of a U. S. penitentiary. A weekly newspaper, the *New Northwest*, is published, and a bank is sustained. Shipments, wheat, live stock, wool, sheep and produce. Population, 1,600. Exp., N. P. Tel., W. U. and Rocky Mt. Mail, daily. George W. Carlton, postmaster.

DILLON. The judicial seat of Beaver Head county, is a prosperous and enterprising city, located in the eastern part of the county, on the U. & N. div. of the U. P. Ry., 70 miles south of Butte City, and is the receiving and distributing point for a large area of the surrounding country. It is the centre of the celebrated Beaver Head valley, in the midst of one of the richest agricultural, stock raising and mining districts in the Territory, and exports large quantities of wool, ore, bullion, produce and live stock to the eastern markets. The city contains 2 banks, churches of the Baptist, Catholic, Episcopal and Methodist denominations, a High and graded schools, a steam shingle and planing mill, and 2 live weekly newspapers, the *Tribune* and the

FORT ASSINABOINE. On the St. P., M. & M. Ry., in Choteau county, 72 miles northeast of Fort Benton, the county seat and nearest banking and shipping point. Stages tri-weekly to Belknap and Fort Benton. Population, 450, mostly soldiers.

FORT BENTON. This prosperous, enterprising and important city is located at the head of navigation on the Missouri river and on the St. P., M. & M. Ry., in the south central portion of Choteau county, of which it is the seat of justice, 144 miles from Helena, 200 from Billings and 800 by water from Bismarck, Dakota. The natural advantages of the city are very great. Located in the centre of a fine grazing and agricultural district, for which it is the receiving and distributing point, and having in the vicinity valuable deposits of gold and silver and inexhaustible beds of coal of a soft, lignite quality, which require only experience, skill and enterprise to make them the best paying industries in the country, the supremacy of the city is assured, and with all its advantages of position and commercial and social conditions, it is destined to become one of the largest cities in the Northwest. It was first settled in 1846, was incorporated as a city in 1883, is governed by a mayor and board of aldermen—J. Sullivan, mayor; H. B. Hill, clerk, F. C. Roosevelt, treas.—and now contains Catholic, Episcopal and Methodist churches, a hospital conducted by the Sisters of Charity, the finest public school buildings in the Territory, erected at a cost of over \$45,000; an imposing and well ap-

pointed court house, 2 banks with a combined capital of \$250,000, and deposits aggregating \$375,000; 4 hotels, a brewery, several wholesale houses that rank among the heaviest wholesale establishments in Montana, a board of trade, and a very thorough representation of the learned professions and of all the minor trades and branches of commerce. A live daily and weekly newspaper, the *River Press*, is published, and is an ably edited and conducted sheet, very popular among its numerous patrons. There is also a monthly publication, the *Montana Wool-Crocer*, published in the interest of the sheep raisers. The Holly system of water works and a most complete system of sewerage has recently been put in, costing \$75,000. The shipments, which are extensive, comprise gold and silver bullion, hides, pelts, furs, wool and live stock; 40,000 sheep and 25,000 head of cattle being shipped in 1887. It is essentially the great wool market of Montana; over 2,500,000 pounds were shipped from here in 1887. Land in the vicinity varies in price from \$3 to \$25 per acre. Exp., Am. Tel., W. U. and Rocky Mt. Population, 3,000. Mail, daily. M. A. Flanagan, postmaster.

county seat, and 17 from Butte City, the nearest shipping and banking point. Stages semi-weekly to Butte City. W. W. McCall, postmaster.

GRAFTON. A recently established postoffice in Meagher county.

GRANITE. A silver and gold quartz mining camp, opened in 1881, settled in 1884. It is in altitude 7,200, in Deer Lodge county, 59½ miles southwest of Deer Lodge City, the county seat, and 4½ east of Phillipsburgh, the nearest banking and shipping point. It sustains a public school, an Episcopal church, a good hotel, and several special and general stores. Here are located the mines and mills of the famous Granite Mountain Mining Co., the Bi-Metallic, West Granite and Granite Belle Syndicate, the first of which produced for the last week of Nov., 1887, 39 bars, carrying 61,608 ounces of fine silver and 23½ ounces of gold; its general average for each month being \$260,000, and its total net output for the fiscal year ending Aug. 1st, 1887, was \$2,065,749, from two mills with 70 stamps. Of the several other producing mines, the Bi-Metallic is at present shipping its ore to Omaha, but contemplates the erection of a 50 stamp mill; this, with a 100 stamp mill to be built by the Granite Mountain Co., will triple the capacity for 1888. Population, 1,500. Express from Phillipsburgh every two hours. Telephone connection. Thomas Treveaille, postmaster.

GRASS RANGE. In Fergus county,
24 miles east of Lewistown, the county seat
and nearest banking point, and 92 north-
west of Junction, the nearest railroad
station. Population, 15. Stages to Junc-
tion and Maiden. J. S. Shepherd, post-
master, hotel and ranch supplies.

GRASS VALLEY. A new postoffice
in the central part of Missoula county, 17
miles west of Missoula, on the N. P. R. R.,
the county seat and nearest shipping and
banking point. Mail, tri-weekly.

GREAT FALLS. The judicial seat
of Cascade county, is located at the falls of
the Missouri river, at the junction of the
St. P., M. & M. and the M. C. Rys., 90 miles
northeast of Helena, and 1,088 west of St.
Paul. Although but little over a year old,
Great Falls has had a phenomenal growth
and is built up with substantial brick and
stone blocks, has one of the finest hotels in
the Territory, Catholic, Episcopal, 2 Meth-
odist and Presbyterian churches, a graded
public school, 2 banks with a combined
capital of \$150,000, a flouring mill, 2 saw
and planing mills, a thorough representa-
tion of the learned professions and minor
branches of industry and commerce, and a
progressive and influential newspaper, the
Tribune. The city is located in the midst
of the richest agricultural, pastoral and
mining district in the territory, has the
greatest available water power on the con-
tinent, and mills and smelters are to be
erected on an extensive scale, for reducing
and refining the gold, silver and copper ores
of the surrounding country. It has at its
very doors vast deposits of coal, iron, lime,
sandstone of four different varieties suit-
able for building, and terra cotta clay of the
finest quality, affording not only all the es-
sentials for heating the ores and the metals,
but also for the manufacture of iron and
steel. Exports live stock, wool, gold and
silver bullion, coal, and immense quantities
of lead. Large forces of men will be em-

ployed in the construction of dams and
mills, and in mining; and there are very
few towns in the Territory with a greater
extent of rich and rapidly developing coun-
try surrounding it, and with more advan-
tages and so few disadvantages. Exp.,
Am. Tel., W. U. and Rocky Mountain.
Population, 2,500. Mail, daily. P. Gib-

Great Falls is Located at the Falls of the Missouri,

WHICH FURNISH THE

Greatest Available Water Power on the Continent.

Is within seven miles of the most extensive coal and iron district in the West, immediately beyond which are rich gold, silver and copper districts. It lays tributary to the best agricultural and grazing part of the Territory, and the pineries of the Upper Missouri and its tributaries. It is especially adapted, by its natural resources and geographical position, to become

The Leading Manufacturing City

Between Minneapolis and the Pacific Ocean, and the principal railroad centre of Montana. The trip to Great Falls will amply repay tourists by the beauty of the scenery on the way, and they will find here the most magnificent series of water falls in the world, while the surrounding country is rich in picturesque scenery.

For Information Address,

Tarbell George E, billiards.

HELENA. The commercial metropolis and the capital of Montana, is located near the eastern base of the main range of the Rocky mountains, overlooking the rich valley of the Prickly Pear, which is 15 miles wide, and famous for its fine farms of

UNION NATIONAL BANK OF DULUTH.

Capital, \$500,000.

U. S. Depository.

Accounts of Banks, Bankers, Corporations and others, received on favorable terms. Prompt attention given to collections.

wheat, rye, oats, barley and vegetables. It is 14 miles east of the Mullan Tunnel, where the N. P. R. R. goes through the main divide and enters the valley of Little Black Foot, made by the head waters of the Columbia, and in all the facilities for the maintenance and extension of trade and commerce has no superior in the Northwest. The city was endowed with municipal functions by a vote of the people in 1881, and now contains a population of 15,000, and is said to be the richest community, per capita, in the world. The city has 1 savings and 4 national banks, with aggregate deposits of seven millions (\$7,000,000). The most prominent of these, the oldest and heaviest capitalized, is the First National Bank of Helena. The next established was the Merchants National, then the Montana National, then the Second National, and last the Thomas Cruse Savings Bank, which began business Sept. 1, 1887. The city owes its location, high up on the foot hills of the mountain, to the fact that there, on Last Chance Gulch, the great gold placers produced some thirty or forty millions of dollars to the early and hardy pioneers who located their cabins on each side of the pay streak, on Last Chance, in the fall of 1864. Since that time the city was twice destroyed by fire (in 1869 and 1874), and as often rebuilt in a more substantial manner than before, and it now boasts of magnificent and commodious brick and stone stores, warehouses and residences. The public buildings are the United States assay office, which assays more silver and refined gold than any other located in the territories; the County Court House, erected at a cost of \$150,000; office of the U. S. marshal and collector of internal revenue; the surveyor general and U. S. local land offices; Catholic, Episcopal, Presbyterian, Baptist, Methodist Episcopal and Lutheran Methodist churches; Ming's opera house; the Grand Central, Cosmopolitan and International hotels; St. John's hospital, St. Peter's hospital and the City Hall. The city is lighted by the Brush Arc Light Company and the residences and stores by the Helena Gas Light Company. Two water companies supply the city with water, whose sources are from pure mountain springs, and a third system, known as the Helena Water Company, is in course of construction, which will cost \$250,000. The advent of the Northern Pacific railroad within the city limits was celebrated with great demonstrations of delight on the 4th of July, 1883, one of the features

O. C. JEWETT, ARCHITECT,

ABERDEEN, DAKOTA.

I solicit your correspondence. Will furnish references and guarantee satisfaction.

of the celebration being the starting of the first loaded train of 38 cars, containing \$250,000 in silver bullion from the Consolidated Gregory mine. The city is on the main line of the Northern Pacific railroad, which forms a junction with the Union Pacific system at Garrison, and so connects Helena with Deer Lodge, Butte, Ogden, Omaha, Denver, etc. The Helena, Boulder Valley & Butte Ry., now completed to Jefferson, Wickes and Boulder Valley, will be extended to Butte the present year (1888). The Helena, Boulder & Madison is projected to reach the rich mineral districts near Pony, in Madison county. The Helena & Red Mountain is constructed to Rimini, and the mining districts on the headwaters of the Ten Mile. The Drummond & Phillipsburgh is a spur running from Drummond, on the Northern Pacific, to Phillipsburgh, where the immense product of the Granite and other mines has built up a town of great importance. The Helena & Northern runs to Marysville, which is the name of the town where the Drum Lummion mine is situated, and near which are the Empire, the Gloster, etc. These roads are all feeders of the Northern Pacific, and under its management. The Manitoba road parallels the Northern Pacific on the north, and is constructed to Great Falls, on the Missouri river, the county seat of the new county of Cascade. There it meets the Montana Central, a part of the same system, which connects it with Helena, thence through Wickes to Butte. The Manitoba also proposes to have lines connecting Helena with Rimini, Marysville and other towns and mining districts. Distance to Portland, Ore., 757; St. Paul, 1,155; Butte City, 86; Fort Benton, 144; Garrison, 52; Missoula, 125.

Helena is located within 12 miles of the Missouri river. The great valleys of the Missouri, Jefferson, Gallatin, Madison and Prickly Pear are tributary with their immense agricultural products, which come for a hundred miles down the natural course of the streams to Helena. It is in the midst of the richest mineral belt in the world, where the precious deposits rib together with gold and silver the several

chains in the main range of the Rocky mountains, and where the great gold and silver mines of the Helena Mining & Reduction Company, the Drum Lummon, the Gloster, the Consolidated Gregory, the Elk Horn, the Home Stake, the Jay Gould and the Empire make their headquarters for the deposit and shipment of the millions of their annual products and profits. The Drum Lummon is owned and operated by an English company, who are working it with a 40-stamp mill and producing about \$1,000 per day. The Helena Mining & Reduction Company is principally owned by the citizens of Helena, and it also is a producer of silver and copper of \$1,000 per day. Numerous business houses do a trade of three-quarters of a million yearly. The manufacture of lumber is a great source of wealth to the several mill men of the city. Many of the great cattle men of the Territory live in Helena, for the educational, moral and social advantages to their children. Two large foundries do the casting for mills and mining machinery, and for iron fronts for buildings. There are 2 reduction works for the assay and treatment of ores in the city, and 2 private assay offices. The most sanguine scarcely realize the wonderful advance being made in transportation facilities, trade, commerce, mining and other industries, which are simply increasing in the same ratio as the country tributary, and there is no city in the territory with a greater extent of rich and rapidly developing country contributing to its commerce. Real estate is steadily increasing in value, business blocks and residences are springing up on every hand, and in all departments of labor there is a good demand for skilled mechanics and workmen. The educational facilities are of a high order and the city is becoming notably prominent for the liberal and careful manner in which such matters are supported and maintained. Besides the graded public schools of Helena there are enough others of noted reputation in the city to entitle it to the distinction of being the centre of learning as well as the commercial and political metropolis of the Territory. In addition to the 16 graded schools there

are the St. Vincent's Academy for young ladies, under the charge of the Sisters of Charity, the St. Peter's School, under the patronage of the Episcopal church, the St. Aloysius day school for boys, under the patronage of the Catholic church, the Helena Business College, and English Training school, and Professor Borro's Musical Academy. The press is represented by the *Herald* and the *Independent*, issued daily and weekly, the *Montana Christian Advocate*, issued semi-monthly, and the *Live Stock Journal*, a monthly publication. The city is located in Lewis and Clarke county, of which it is the judicial seat. The county for the year 1887 shows an assessed valuation of over ten millions, and the city seven million five hundred thousand dollars. The tax levy for county, Territory, poor, school and road tax, 15 mills; for city, 7 mills. Revenue of city and county from all sources, including licenses, \$200,000. The improvements upon city property since the advent of the Northern Pacific and Union Pacific railroads in 1883, have been many and valuable, showing some of the handsomest business blocks and dwellings to be found in the Northwest. The rapid growth of the city is the result of no great boom, but is the consequence of a healthy, steady demand for new and legitimate business developed by the railroads, and capital invested in gold and silver mills, smelters and furnaces, in the contiguous mining districts. Helena is remarkably healthy, having an invigorating atmosphere, has cultured and refined society and excellent moral and educational advantages, and is populated by as energetic, wide awake, enterprising and thriving people as exist on the face of the globe. The Helena Board of Trade and Montana Club are prominent institutions for business and pleasure, and there is no enterprise calculated to benefit the city too ponderous or too costly to be beyond the grasp of its citizens. Possessing as it does all the advantages which combine to make home attractive or business prosperous and remunerative, it presents a most inviting field to the capitalist, manufacturer, mechanic, or those seeking a new and pleasing location for residence. The possibilities of the future in the development of its latent or undeveloped wealth will yet astonish the world, more by its rapid strides in commerce in the years to come than the wonderful and marvelous changes that have been wrought in the past. Stage to White Sulphur Springs, 80 miles, fare \$5 in summer and \$6 in winter, tri-weekly; to Jay
